JOB FAMILY AND FUNCTION

Job Family:	Veterinary & Animal Care
Job Function:	Patient Care & Rehabilitation

JOB SUMMARY

Performs various routine and specialized animal care duties and medical tests. This position is responsible for the monitoring and treatments for all patients admitted in hospital and may provide primary patient care under minimal supervision. As inpatient nursing staff, this position provides patient care for the most critical and emergent patients in the hospital and the demands for advanced clinical and technical proficiency are rigorous.

RESPONSIBILITIES

- Administers treatments and monitoring of patients admitted in IMC or ICU, Observes and records vital data, abnormal signs, body weight, food/water intake of animals, and collects and labels specimens and perform treatments and administer medications as prescribed by primary veterinarian.
- Performs, instructs, and demonstrates advanced veterinary care techniques and procedures related to emergency and critical care medicine.
- Administers injections, anesthesia, vaccines, and various other treatments to patients.
- Assists veterinarians in the care of patients requiring advanced procedures and life-saving techniques including CPR, mechanical ventilation and dialysis.
- Inspects facilities, equipment, and supplies daily, as well as observes health status of animals , environmental conditions , temperature , and sanitation.
- Performs emergency triage and stabilization of patients presenting through the Emergency service.
- May be responsible for, or assist in, billing clients, inputting charges, and/or similar tasks.
- This position will work to provide care for patients after hours, on weekends, and holidays.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility	May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.
