

I am in quarantine or isolation and need medications.

How can the AU Student Pharmacy help?

The [Auburn University Student Pharmacy](#) is here to help the campus community. Reach them by:

+ Calling 334.844.4641

+ Emailing austudentrx@auburn.edu

The pharmacy offers services especially for students in isolation with COVID-19 or those who are in quarantine after exposure to COVID-19. Here are ways they can help:

+ Deliver needed over-the-counter medications

Contact the pharmacy for a Care Kit containing CDC-recommended products to help with your recovery.

The Care Kit includes:

- Vitamin C (250 mg)
- Vitamin D (10mcg)
- Zinc Sulfate (50mg)
- Acetaminophen (500 mg)
- Other items can be added, including sore throat lozenges and cough drops, Airborne-brand vitamins (gummies, powder packets and tablets), cold and allergy products, thermometers

We also have a variety of other over-the-counter products that can be delivered to the dorm at your request.

+ Fill and deliver your prescription medications

Have medications that you take on a regular basis that are being filled at another pharmacy? We can transfer those to be filled at the AU Student Pharmacy and delivered to the dorm.

+ Provide simple and stress-free payment options

For your convenience, you can choose to charge prescriptions, your Care Kit or other products to your E-Bill/Student Account. We also accept all other forms of payment.
