BEARD-EAVES MEMORIAL COLISEUM
AUBURN UNIVERSITY, ALABAMA

THE PLEDGE OF ALLEGIANCE

I pledge allegiance to the Flag,
of the United States of America
and to the Republic for which it stands,
One Nation, under God
Indivisible, with Liberty and Justice for All.

THE STAR SPANGLED BANNER

O say can you see, by the dawn's early
light,
What so proudly we hailed at the twilight's
last gleaming?
Whose broad stripes and bright stars,
through the perilous fight,
O'er the ramparts we watched, were so
gallantly streaming?
And the rocket's red glare, the bombs
bursting in air,
Gave proof through the night that our
Flag was still there.
O say does that Star-spangled Banner yet wave
O'er the land of the free and the home of
the brave?

ALMA MATER

On the rolling plains of Dixie
'Neath the sun kissed sky
Proudly stands our Alma Mater
Banners high.

To thy name we'll sing thy praise
From hearts that love so true
And pledge to thee our loyalty
The ages through.

We hail thee, Auburn, and we vow
To work for thy just fame,
And hold in memory as we do now
Thy cherished name.

ACADEMIC REGALIA

Academic regalia worn by faculty during commencement ceremonies is based on attire used in 12th and 13th century universities. Academic dress and accoutrements of this type have been used in the United States since colonial times. To maintain tradition and the conformity of academic symbols there has been little change in the symbolism of pattern and color since the Middle Ages. In 1895 an Intercollegiate Commission in the United States adopted a standardized code for the use of academic gowns, hoods, and caps, which included regulating the cut, style and materials of gowns. In addition, the colors which were to represent the different fields of learning were prescribed. Over the years, only minor revisions have been made to the code, which is followed by the vast majority of colleges and universities in America, including Auburn University.

GOWNS

Gowns traditionally are all black (Harvard, Princeton, and Yale are exceptions) and are of three styles. The bachelor's gown is a comparatively simple style that falls in straight lines from an elaborate yoke and has pointed sleeves. The master's gown is similar to the bachelor's except for its peculiar arrangement of the long sleeves with square ends that hang below the elbow. The doctor's gown is elaborate, full-cut and flowing, and is distinguished by velvet panels down the front and around the neck and by three velvet bars on the bell-shaped sleeves.

HOODS

Historically, the academic hood was literally a garment to protect the wearer from foul weather. Today, it is the identifying symbol of the degree and the length indicates which degree it represents: three and a half feet for the master's and four feet for the doctoral degree. Hoods are lined with the official color of the college or university conferring the degree. The color of the trimming identifies the major field of learning: maize for agriculture, brown for architecture, drab for business, orange for engineering, light blue for education, russet of forestry, burgundy for human sciences, white for liberal arts, golden yellow for sciences and math, apricot for nursing, olive green for pharmacy, and gray for veterinary medicine.

The traditional rule for hoods is that a candidate for a degree should not wear the hood of that degree until it is actually conferred. However, at Auburn University, master's degrees are conferred en masse and degree candidates wear their hoods in the processional and throughout the ceremony. Recipients of the Doctoral degree are individually hooded during the commencement ceremony. These candidates do not wear the hood in the academic processional, but receive the hood when the degree is conferred.

CAPS AND TASSELS

The black mortar board is the generally recommended cap worn with academic regalia. A long tassel is fastened to the middle point on the top of the cap. The tassel is usually the color appropriate to the subject. There is no general rule on the position of the tassel on the mortar board. However, numerous institutions have adopted a practice of requiring candidates for degrees to wear the tassels on the right front side before degrees are conferred and to shift them to the left side when the degrees are awarded to them.

A SPIRIT THAT IS NOT AFRAID

THE AUBURN CREED

I BELIEVE THAT THIS IS A PRACTICAL WORLD AND THAT I CAN COUNT ONLY ON WHAT I EARN. THEREFORE, I BELIEVE IN WORK, HARD WORK. I BELIEVE IN EDUCATION, WHICH GIVES ME THE KNOWLEDGE TO WORK WISELY AND TRAINS MY MIND AND MY HANDS TO WORK SKILLFULLY. I BELIEVE IN HONESTY AND TRUTHFULNESS, WITHOUT WHICH I CANNOT WIN THE RESPECT AND CONFIDENCE OF MY FELLOW MEN. I BELIEVE IN A SOUND MIND, IN A SOUND BODY AND A SPIRIT THAT IS NOT AFRAID AND IN CLEAN SPORTS TO DEVELOP THESE QUALITIES. I BELIEVE IN OBEDIENCE TO LAW BECAUSE IT PROTECTS THE RIGHTS OF ALL. I BELIEVE IN THE HUMAN TOUCH, WHICH CULTIVATES SYMPATHY WITH MY FELLOW MEN AND MUTUAL HELPFULNESS AND BRINGS HAPPINESS FOR ALL. I BELIEVE IN MY COUNTRY, BECAUSE IT IS A LAND OF FREEDOM AND BECAUSE IT IS MY OWN HOME, AND THAT I CAN BEST SERVE THAT COUNTRY BY "DOING JUSTLY, LOVING MERCY, AND WALKING HUMBLY WITH MY GOD," AND BECAUSE AUBURN MEN AND WOMEN BELIEVE IN THESE THINGS, I BELIEVE IN AUBURN AND LOVE IT.

THE PLEDGE OF ALLEGIANCE

I pledge allegiance to the Flag,
of the United States of America
and to the Republic for which it stands,
One Nation, under God
Indivisible, with Liberty and Justice for All.

THE STAR SPANGLED BANNER

O say can you see, by the dawn's early
light,
What so proudly we hailed at the twilight's
last gleaming?
Whose broad stripes and bright stars,
through the perilous fight,
O'er the ramparts we watched, were so
gallantly streaming?
And the rocket's red glare, the bombs
bursting in air,
Gave proof through the night that our
Flag was still there.
O say does that Star-spangled Banner yet wave
O'er the land of the free and the home of
the brave?

ALMA MATER

On the rolling plains of Dixie
'Neath its sun kissed sky
Proudly stands our Alma Mater
Banners high.

To thy name we'll sing thy praise
From hearts that love so true
And pledge to thee our loyalty
The ages through.

We hail thee, Auburn, and we vow
To work for thy just fame,
And hold in memory as we do now
Thy cherished name.

AUBURN UNIVERSITY

Auburn University has a proud and dynamic 146-year history. The institution was chartered on February 1, 1856 as the East Alabama Male College, a private liberal arts school established by Alabama Methodists to foster Christian education.

A single four-story building was completed at a cost of \$111,000 in 1859 with 80 students enrolled and a faculty of five. Five male students were graduated in the first commencement held. When Alabama seceded from the Union, faculty and students resigned to enlist for the duration of the Civil War. Among those joining was William J. Samford, later Governor of Alabama.

The college building, then named Old Main, was used as a Confederate hospital from 1864 until classes resumed in 1866. When fire destroyed Old Main in 1887, it was replaced on the same site in 1888 by Samford Hall, named after Alabama's governor, William James Samford. Today Samford Hall serves as the university's administrative headquarters.

The college struggled in the shattered Southern economy during the years after the Civil War. It was a ruined economy and those that pledged large sums to the college went bankrupt and could not meet their pledges. The Methodist Church granted the institution to the state in 1872 for use as a land-grant university under the Morrill Act, signed by President Lincoln in 1862. The institution then became the Agricultural and Mechanical College of Alabama, changing from the private liberal arts school to a state-supported college with an emphasis on the new scientific and agricultural programs.

Continuous expansion followed. In 1899, the Alabama Legislature decided a new name was needed to reflect the expanded role of the institution. The college's name was changed to the Alabama Polytechnic Institute.

From the beginning, however, virtually everyone connected with the university ignored official names, preferring always the name selected for the town, founded in 1836, where the institution was located—Auburn. Elizabeth Harper, the daughter-in-law of the settlement's founder, was inspired by a line from Oliver Goldsmith's poem, "The deserted Village," which reads, "Sweet Auburn, loveliest village of the plain." Would the history of this institution have been the same had it been named Geneva as once was proposed for naming the town. The story goes that straws were drawn for naming the town Geneva or Auburn. Auburn won out.

As Charles C. Thach, the university's sixth presi-

dent said, "The Alabama Polytechnic Institute, a high sounding phrase, is fit for legal document; and grave legislation, but not to conjure with and not to yell and not to dream with as is "Fair Auburn." The Legislature agreed, and in 1960 Alabama Polytechnic Institute became Auburn University.

Women students were first admitted to Auburn in 1892, making Auburn the oldest four-year coeducational school in Alabama and the second oldest in the Southeast.

Thirteen schools and colleges advance the University's outstanding programs of teaching, research and service. The current colleges and schools and the dates of this original inception are: College of Agriculture, 1872; College of Architecture Design and Construction, 1907; College of Business, 1967; College of Education, 1915; Samuel Ginn College of Engineering, 1872; School of Forestry and Wildlife Sciences, 1984; College of Human Sciences, 1916; College of Liberal Arts, 1986; School of Nursing, 1979; James Harrison School of Pharmacy, 1885; College of Sciences and Mathematics, 1986; College of Veterinary Medicine, 1907; Graduate School, 1872. In 1986, a university reorganization created the College of Liberal Arts and the College of Sciences and Mathematics from the former school of Arts and Sciences (1872), as well as portions of the school of Agriculture and Biological Sciences and the School of Architecture and Fine Arts (both subsequently renamed).

Auburn's greatest growth and development came after World War II. From a campus of 35 buildings in 1946, the university's multi-million dollar physical complex has grown to approximately 375 buildings on 1,840 acres. The Alabama Agricultural Experiment Station conducts crop, animal and soil experimentation statewide, and Extension agents are stationed in all 67 Alabama counties. Main Campus enrollment is 22,469, with about 1,200 faculty.

In 1967, the State Legislature approved a \$5 million bond issue for the purpose of establishing a four-year university at Montgomery under the supervision and control of the Auburn University Board of Trustees. It was named Auburn University at Montgomery. AUM began operation in the former Extension Center of the University of Alabama temporarily in 1969. Money was raised by the Montgomery community to purchase a 500-acre site seven miles east of the city off Interstate 85 to build. The new campus was built and occupied in 1971. Currently its enrollment stands at approximately 5,000.

AUBURN UNIVERSITY PRESIDENT

On August 8, 1999, William F. Walker was named Provost and Vice President for Academic Affairs of Auburn University. February 12, 2001, the Auburn University Board of Trustees appointed Provost William F. Walker interim president. On June 3, 2002, Dr. Walker was appointed by the Board of Trustees as the 16th president of Auburn University.

Born December 1, 1937, in Sherman, Texas, Dr. Walker earned his Ph.D. in mechanical engineering from Oklahoma State University, and M.S. and B.S. degrees in aerospace engineering from the University of Texas at Austin. He also holds an associate's degree from Arlington State College in Texas.

Dr. Walker came to Auburn as engineering dean and a professor of mechanical engineering from Rice University, where he was a faculty member from 1965-88. At Rice he was chair of the Department of Mechanical Engineering and Materials Science for nine years. During much of his tenure at the Texas institution, he was a professor of both mechanical engineering and mathematics.

While dean of the College of Engineering from 1988 until 1998, Dr. Walker established a uniform system for faculty evaluation and assignment; involved engineering faculty in the strategic planning, tenure and promotion processes; and implemented programs to increase and retain minority faculty and student enrollment within engineering.

Due to increased emphasis on retention and graduation of students, the College of Engineering at Auburn now ranks in the top 15 in the nation in the number of undergraduate engineering degrees awarded.

Dr. Walker also was instrumental in establishing a development officer position dedicated to the College of Engineering. As a result, charitable giving to engineering rose significantly from approximately \$1.4 million in fiscal 1988 to more than \$33 million by 1997.

In 1998, William F. Walker served as co-chair of a special committee created by the Auburn University Board of Trustees to examine university governance and priorities. The committee's recommendations led to a defining of academic priorities, including identification of high priority programs for extra funding and the phase-out of low-priority programs.

Highlights of Dr. William Walker's tenure as President include:

- Successfully steering Auburn through budget cuts prompted by a 6.2 percent proration ordered by Governor Don Siegelman on February 2, 2001.
- Presenting honorary degrees to Auburn's first black student and the university's first black graduate.
- Presiding over the groundbreaking for new Poultry Science Center and Ag Heritage Park.
- Auburn ranked 44th among the nations' top public universities and No. 1 in Alabama by *U.S. News and World Report* in magazine issued in September 2001.
- Auburn's 2001 fall semester enrollment was a record 22,469

Dr. William F. Walker

students, highlighted by a 24 percent increase in the admittance of African-American students in the 2001 freshman class.

- Auburn ranked 16th nationally in 2002 in graduating African-Americans with bachelor's degrees in engineering, according to *Black Issues in Higher Education*.
- In an assessment of the financial strength of Auburn, Moody's Investors Service in November 2001 upgraded Auburn University's General Fee Revenue Bonds from A1 to Aa3. The Aa3 rating is the highest achieved by any academic institution in Alabama, matching the bond rating for the state of Alabama.
- Auburn's transportation research received acquisition of a \$20 million federal appropriation to help fund construction of a \$50 million Center for Transportation Technology.
- Taking major steps to follow up on a commitment made in fall 2001 to make diversity a "core value" within the university. The steps include establishment of a standing university Diversity Leadership Council, establishment of a permanent Center for Diversity and Race Relations and the identification of more than 400 courses that incorporate some elements of diversity and/or tolerance with regard to race, disability, gender and sexual preference.
- Record 2,443 degrees awarded during spring 2002 commencement.
- Approval in May 2002 by the Alabama Commission on Higher Education of the nation's first Bachelor of Wireless Engineering degree program, which was made possible by a \$25 million gift to the Samuel Ginn College of Engineering.

GREETINGS FROM THE PRESIDENT

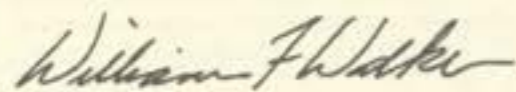

To the graduates of the Class of 2002, to your families and friends, I speak for everyone at Auburn University in expressing heartfelt congratulations to each of you on a tremendous achievement that has taken years to fulfill. Today marks a special time in each of your lives, as well as for those that invested so much in your dreams and desires to reach great heights of fulfillment. It is a great victory for you, as well as for those who supported you personally and financially throughout these challenging years.

Commencement signals a closure to your days at Auburn University. However, a commencement is also a beginning. It is a beginning of new hopes, new dreams, new ambitions and great expectations. When you came to Auburn, you set goals for yourself in order to one day go from here and become a leader in this great nation of ours. Auburn is the place from which you now depart like ripples expanding in a body of water, each ripple a crest of teachers, engineers, artists, scientists, and professionals in numerous academic areas. Throughout your career you will continue to learn within your fields of study, as you give of yourselves.

Today is a celebration of you. You have earned this celebration. From the words of George Petrie, author of The Auburn Creed, "I believe this is a practical world and that I can count only on what I earn. Therefore, I believe in work, hard work." You have worked hard and you have earned this celebration.

I hope that all of you will look back on your days at Auburn University with fondness and know that wherever you go, a part of Auburn goes with you. And know also that you will always be greeted warmly upon your return.

Good Luck and War Eagle!

William F. Walker

B.S., Nilton University, 1994. B.S.E.V., Auburn University, 2001. "Natu-
ralism in Industrial Design," directed by Tin-Man Lau, Department of In-
dustrial Design.

Master of Science

Martiniq Anne Jansell Alber Auburn
B.A., University of Rhode Island, 1999. "Evaluation of the Accuracy of
Rating Scales," directed by Jeffrey D. Fecteau, Department of Psychology.

LaShonda Myrice Allen Suellville, Georgia
B.S., Auburn University, 2000. "Narrative Training in Four-Year-Old African-
American Preschool Children: An Exploration of Racial and Dialectal
Mismatch Between Client and Clinician," directed by William O. Haynes,
Department of Communication Disorders.

Timothy James Bergstrom Charleston, South Carolina
B.S., Clemson University, 1997. "Loblolly (*Pinus banksia* L.) and Slash Pine
(*P. elliottii* Englem.) Tolerance to Halosulfuron - Methyl in Forest Tree Nur-
series in the Southern United States," directed by Kenneth L. McNabb, School
of Forestry and Wildlife Sciences.

Brendt Newell Blanks Birmingham
B.S., Auburn University, 2000. "Assessment of Positive and Negative Af-
fect During a Couple's Conflictive Interaction on Marital Satisfaction," di-
rected by Thomas A. Smith, Department of Human Development and Fam-
ily Studies.

Nadja Biedong Jena, Germany
B.S., Hochschule Anhalt, 2000. "Role of Product Life Cycle and Informa-
tion Systems in Design and Development of an Internal Combustion En-
gine," directed by Polapragada K. Raju, Department of Mechanical En-
gineering.

Michael Chad Bolding Red Bay
B.S., Auburn University, 2000. "Forest Fuel Reduction and Energywood
Production Using a CTL/Small Chipper Harvesting System," directed by
Bobby L. Lanford, School of Forestry and Wildlife Sciences.

Kelley Warren Burgin Auburn
B.S., Auburn University, 2000. "The Non-Existence of a Bijective Almost
Perfect Nonlinear Function of Order 16," directed by Kevin T. Phelps, De-
partment of Discrete and Statistical Science.

Jennifer Jane Cain Harpersville
B.S., Auburn University, 1999. "Turfgrass-Sod Production in Alabama:
Economics and Marketing," directed by John L. Adrian, Department of Ag-
ricultural Economics and Rural Sociology.

Toni Yvette Capes Salem, Virginia
B.S., Charleston Southern University, 1997. "The Relationship of Income
and the Therapeutic Alliance on Symptom Distress for Mothers, Fathers,
and Adolescents Participating in Family Therapy," directed by Scott A.
Ketting, Department of Human Development and Family Studies.

Robert H. Carpenter Petoskey, Michigan
B.A., Antioch College, 1992. "Sex Determination and Inheritance Sex Ra-
tio in Families *Oreochromis niloticus*," directed by Ronald P. Phelps, De-
partment of Fisheries and Allied Aquacultures.

Jennifer Lynn Claghorn Tybee Island, Georgia
B.S., Auburn University, 1998. "Determining the Efficacy of Employing
Bacillus globigii as a Particulate Tracer in Engineered Systems," directed by
Clifford R. Lange, Department of Civil Engineering.

Leslie Miriam Cole Zumbrota, Minnesota
B.S., University of Montana, 2000. "Contest Strategies of the Female House
Finch: Proximate Mechanisms Mediating Aggression," directed by Geoffrey
E. Hill, Department of Biological Sciences.

Kelly M. Cozart Huntsville
B.A., University of Alabama at Huntsville, 2000. "A Literature Review
Exploring the Effect of Media on Distorted Body Image and Negative Self
Image of Caucasian American Females," directed by Jamie S. Carney, De-
partment of Counseling and Counseling Psychology.

Ryan M. Creighton Madison
B.S., Auburn University, 2000. "Manufacturing of Multi Directional Com-
posite Flywheel Rims," directed by Faissal Abdel-Hady, Department of Text-
ile Engineering.

Jennifer Marie Crosswhite Auburn
B.S., St. Cloud State University, 1998. "Empirically Testing Gottfredson
and Hirschi's General Theory of Crime in African American Adolescents,"
directed by Alexander T. Vazsonyi, Department of Human Development and
Family Studies.

Ranjit David Chennai, India
B.M.E., University of Madras, 2000. "Orthogonal Machining of Steel 4340
With a Hardness Gradient," directed by J Temple Black, Department of In-
dustrial and Systems Engineering.

Anne McCoy Estes Athens
B.S., Auburn University, 1995. "Localization and Quantification of Carbonic Anhydrase Activity in the Symbiotic Scyphozoan, *Cassiopea samachana*," directed by Raymond P. Henry and Stephen C. Kempf, Department of Biological Sciences.

Benjamin D. Green Smyrna, Georgia
B.S.E., Auburn University, 1999. "Evaluation of Job Rotation Plans to Improve Noise Exposure," directed by Brian J. Carnahan, Department of Industrial and Systems Engineering.

Tyrel Lee Harbuck Auburn
B.S., Auburn University, 1999. "Landscape Evaluations of Controlled Release Fertilizers on Perennial Plants," directed by Donald J. Eakes, Department of Horticulture.

Branden Hayes Henline Orem, Utah
B.S., Brigham Young University, 2000. "The Experience of Sexual and Emotional Online Infidelity," directed by Lenne K. Lamke, Department of Human Development and Family Studies.

Brian J. Higginbotham Auburn
B.S., Brigham Young University, 2000. "The Association Between Adult Attachment Styles, Religiosity, and Courtship Violence Experienced by Females," directed by Scott A. Ketting, Department of Human Development and Family Studies.

Mark Dewey Howell Oceanside, California
B.S., Auburn University, 1997. "Molt Dynamics of Male Long-Tailed Ducks on the Beaufort Sea," directed by James B. Grand, School of Forestry and Wildlife Sciences.

Yanhui Huang Xiamen, China
B.E., Xiamen University, 1997. "An XML World Wide Web Search Engine Using an Enhanced Approximate Tree Embedding Algorithm (EATEA)," directed by Wen-Chen Hu, Department of Computer Science and Software Engineering.

Sabrina Jo Jacks Huntsville
B.S., Auburn University, 1999. B.A., 1999. "Relationship of Adult Social Support, Peer Social Support, Family Support, and Parent-Child Communication to Adolescent Sexual Attitudes," directed by Connie J. Salts, Department of Human Development and Family Studies.

Scott Francis Jakubowski Grand Lake, Colorado
B.S., Brigham Young University, 2000. "He's No Prince Charming, but He'll do for Now: A Study Examining Willingness to Compromise Ideals in Mate Selection as a Function of Sex, Mate Value, Relationship Context and Sexual Experience," directed by Thomas A. Smith, Jr., Department of Human Development and Family Studies.

Jun Jiang Auburn
B.S., Nanjing University of Aeronautics & Astronautics, 1993. M.S., 1996. "An Approximate Structure Matching Method for an XML World Wide Web Search Engine," directed by Wen-Chen Hu, Department of Computer Science and Software Engineering.

Sara Elizabeth Kerr Charleston, West Virginia
B.S., Virginia Tech, 2000. "Non-Anemic Iron Deficiency, Oral Iron Supplementation, and Oxidative Damage in College-Aged Females," directed by Sareen S. Gropper, Department of Nutrition and Food Science.

Jonathan Samuel Kinard Montgomery
B.S., Auburn University, 2000. "The Efficacy of the Alabama Professional Logging Manager Program," directed by Richard W. Brinker, School of Forestry and Wildlife Sciences.

Kristin Kay Lemertz Jacksonville, Florida
B.S., Jacksonville University, 1996. "Biology, Grazing, and Physiology of a Stream Snail *Elimia flava* (Gastropoda: Prosobranchia) Naturally Infected by a Trematode Parasite," directed by Jack W. Feminella and Raymond P. Henry, Department of Biological Sciences.

Amy Susanne Lopez Auburn
B.S., Auburn University, 2000. "Triscala as a Replacement for Corn in Swine Diets: Effect on Nutrient Excretion," directed by Lowell T. Prohish, Department of Animal Science.

Jill C. Lorye Auburn
B.S., University of Minnesota, 1994. D.V.M., 1998. "Evaluation of Reverse Iontophoresis as a Method of Non-Invasive Glucose Monitoring in Dogs and Cats," Biomedical Sciences (Interdepartmental), directed by Ellen N. Behrend, Department of Clinical Sciences.

Christiane E. McKelvey Ozark
B.S., Troy State University, 1999. "Vocational Disability and Medical Impairment Ratings in Private Rehabilitation Outcomes," directed by Randall S. McDaniel, Department of Rehabilitation and Special Education.

Diana Tackett McLemore Auburn
B.S., Auburn University, 1999. "Life-Cycle Water Quality Impacts From Two Culvert Stream Crossings," directed by Mark O. Barnett (Department of Civil Engineering) and Steven E. Taylor, Department of Biosystems Engineering.

Lisa Annette McWilliams Birmingham
B.S., Auburn University, 1996. "Variation in Diet of the Mexican Free-Tailed Bat (*Fallicauda brasiliensis mexicana*) at Carlsbad Caverns, New Mexico," directed by Troy L. Best, Department of Biological Sciences.

Natarajan Meghanathan Chennai, India
B.T., Anna University, 1998. "Resource Scheduling and Load Sharing Using Tickets in Mobile Computing Environments," directed by Sanjeev Baskiyar, Department of Computer Science and Software Engineering.

Gerald L. Milek Smiths
B.M.E., Auburn University, 1998. "Stability, Robustness and Lyapunov Redesign of Dynamical Systems with Time Periodic Coefficients," directed by Subhash C. Sinha, Department of Mechanical Engineering.

Shakib Morshed Auburn
B.M.E., Bangladesh University of Engineering and Technology, 1997. "Investigation of Thermal Performances of Various Interface Materials in Electronic Packaging," directed by Roy W. Knight, Department of Mechanical Engineering.

Taura Lynn Nichols Killen
B.S., Auburn University, 1997. "Reduction of Algal Toxicity in Treated Effluent Discharged From Municipal Lagoons in Alabama Using Chlorination," directed by Clifford R. Lange, Department of Civil Engineering.

Mamun Parmer Pune, India
B.E., Government College of Engineering, 2000. "Modeling, Analysis and Optimal Controller Design for an Electric Power Assist Steering System," directed by John Y. Hung, Department of Electrical and Computer Engineering.

Charles Hunter Pearson Huntsville
B.C.E., Auburn University, 1998. "Remaining Fatigue Life Assessment of Cover-Plated Steel Girders Using a Reliability Based Approach," directed by J. Michael Stallings, Department of Civil Engineering.

Elizabeth Anne Penny Enterprise
B.S., University of South Alabama, 1997. "Groundwater Geochemistry, Isotope Hydrology, and Microbiology of the Tuscaloosa and Eutaw Aquifers, Central-South Alabama," directed by Ming-Kuo Lee, Department of Geology and Geography.

Dackral Scott Phillips Auburn
B.S., Auburn University, 2001. "SWOG - Semantic Web Ontology Generator," directed by Juan Gilbert, Department of Computer Science and Software Engineering.

Chet Christopher Plank Metairie, Louisiana

ACADEMIC REGALIA

Academic regalia worn by faculty during commencement ceremonies is based on attire used in 12th and 13th century universities. Academic dress and accoutrements of this type have been used in the United States since colonial times. To maintain tradition and the conformity of academic symbols there has been little change in the symbolism of pattern and color since the Middle Ages. In 1895 an Intercollegiate Commission in the United States adopted a standardized code for the use of academic gowns, hoods, and caps, which included regulating the cut, style and materials of gowns. In addition, the colors which were to represent the different fields of learning were prescribed. Over the years, only minor revisions have been made to the code, which is followed by the vast majority of colleges and universities in America, including Auburn University.

GOWNS

Gowns traditionally are all black (Harvard, Princeton, and Yale are exceptions) and are of three styles. The bachelor's gown is a comparatively simple style that falls in straight lines from an elaborate yoke and has pointed sleeves. The master's gown is similar to the bachelor's except for its peculiar arrangement of the long sleeves with square ends that hang below the elbow. The doctor's gown is elaborate, full-cut and flowing, and is distinguished by velvet panels down the front and around the neck and by three velvet bars on the bell-shaped sleeves.

HOODS

Historically, the academic hood was literally a garment to protect the wearer from foul weather. Today, it is the identifying symbol of the degree and the length indicates which degree it represents: three and a half feet for the master's and four feet for the doctoral degree. Hoods are lined with the official color of the college or university conferring the degree. The color of the trimming identifies the major field of learning: maize for agriculture, blue violet for architecture, drab for business, orange for engineering, light blue for education, russet for forestry, burgundy for human sciences, white for liberal arts, golden yellow for sciences and math, apricot for nursing, olive green for pharmacy, and gray for veterinary medicine.

The traditional rule for hoods is that a candidate for a degree should not wear the hood of that degree until it is actually conferred. However, at Auburn University, master's degrees are conferred en masse and degree candidates wear their hoods in the processional and throughout the ceremony. Recipients of the Doctoral degree are individually hooded during the commencement ceremony. These candidates do not wear the hood in the academic processional, but receive the hood when the degree is conferred.

CAPS AND TASSELS

The black mortar board is the generally recommended cap worn with academic regalia. A long tassel is fastened to the middle point on the top of the cap. The tassel is usually the color appropriate to the subject. There is no general rule on the position of the tassel on the mortar board. However, numerous institutions have adopted a practice of requiring candidates for degrees to wear the tassels on the right front side before degrees are conferred and to shift them to the left side when the degrees are awarded to them.

THE AUBURN CREED

I BELIEVE THAT THIS IS A PRACTICAL WORLD AND THAT I CAN COUNT ONLY ON WHAT I EARN. THEREFORE, I BELIEVE IN WORK, HARD WORK. I BELIEVE IN EDUCATION, WHICH GIVES ME THE KNOWLEDGE TO WORK WISELY AND TRAINS MY MIND AND MY HANDS TO WORK SKILLFULLY. I BELIEVE IN HONESTY AND TRUTHFULNESS, WITHOUT WHICH I CANNOT WIN THE RESPECT AND CONFIDENCE OF MY FELLOW MEN. I BELIEVE IN A SOUND MIND, IN A SOUND BODY AND A SPIRIT THAT IS NOT AFRAID AND IN CLEAN SPORTS TO DEVELOP THESE QUALITIES. I BELIEVE IN OBEDIENCE TO LAW BECAUSE IT PROTECTS THE RIGHTS OF ALL. I BELIEVE IN THE HUMAN TOUCH, WHICH CULTIVATES SYMPATHY WITH MY FELLOW MEN AND MUTUAL HELPFULNESS AND BRINGS HAPPINESS FOR ALL. I BELIEVE IN MY COUNTRY, BECAUSE IT IS A LAND OF FREEDOM AND BECAUSE IT IS MY OWN HOME, AND THAT I CAN BEST SERVE THAT COUNTRY BY "DOING JUSTLY, LOVING MERCY, AND WALKING HUMBLY WITH MY GOD." AND BECAUSE AUBURN MEN AND WOMEN BELIEVE IN THESE THINGS, I BELIEVE IN AUBURN AND LOVE IT.

THE PLEDGE OF ALLEGIANCE

I pledge allegiance to the Flag,
of the United States of America
and to the Republic for which it stands,
One Nation, under God
Indivisible, with Liberty and Justice for All.

THE STAR SPANGLED BANNER

O say can you see, by the dawn's early
light,
What so proudly we hailed at the twilight's
last gleaming?
Whose broad stripes and bright stars,
through the perilous fight,
O'er the ramparts we watched, were so
gallantly streaming?
And the rocket's red glare, the bombs
bursting in air,
Gave proof through the night that our
Flag was still there.
O say does that Star-spangled Banner yet wave
O'er the land of the free and the home of
the brave?

ALMA MATER

On the rolling plains of Dixie
'Neath its sun kissed sky
Proudly stands our Alma Mater
Banners high.

To thy name we'll sing thy praise
From hearts that love so true
And pledge to thee our loyalty
The ages through.

We hail thee, Auburn, and we vow
To work for thy just fame,
And hold in memory as we do now
Thy cherished name.

AUBURN UNIVERSITY

Auburn University has a proud and dynamic 146-year history. The institution was chartered on February 1, 1856 as the East Alabama Male College, a private liberal arts school established by Alabama Methodists to foster Christian education.

A single four-story building was completed at a cost of \$111,000 in 1859 with 80 students enrolled and a faculty of five. Five male students were graduated in the first commencement held. When Alabama seceded from the Union, faculty and students resigned to enlist for the duration of the Civil War. Among those joining was William J. Samford, later Governor of Alabama.

The college building, then named Old Main, was used as a Confederate hospital from 1864 until classes resumed in 1866. When fire destroyed Old Main in 1887, it was replaced on the same site in 1888 by Samford Hall, named after Alabama's governor, William James Samford. Today Samford Hall serves as the university's administrative headquarters.

The college struggled in the shattered Southern economy during the years after the Civil War. It was a ruined economy and those that pledged large sums to the college went bankrupt and could not meet their pledges. The Methodist Church granted the institution to the state in 1872 for use as a land-grant university under the Morrill Act, signed by President Lincoln in 1862. The institution then became the Agricultural and Mechanical College of Alabama, changing from the private liberal arts school to a state-supported college with an emphasis on the new scientific and agricultural programs.

Continuous expansion followed. In 1899, the Alabama Legislature decided a new name was needed to reflect the expanded role of the institution. The college's name was changed to the Alabama Polytechnic Institute.

From the beginning, however, virtually everyone connected with the university ignored official names, preferring always the name selected for the town, founded in 1836, where the institution was located—Auburn. Elizabeth Harper, the daughter-in-law of the settlement's founder, was inspired by a line from Oliver Goldsmith's poem, "The deserted Village," which reads, "Sweet Auburn, loveliest village of the plain." Would the history of this institution have been the same had it been named Geneva as once was proposed for naming the town. The story goes that straws were drawn for naming the town Geneva or Auburn. Auburn won out.

As Charles C. Thach, the university's sixth presi-

dent said, "The Alabama Polytechnic Institute, a high sounding phrase, is fit for legal document; and grave legislation, but not to conjure with and not to yell and not to dream with as is "Fair Auburn." The Legislature agreed, and in 1960 Alabama Polytechnic Institute became Auburn University.

Women students were first admitted to Auburn in 1892, making Auburn the oldest four-year coeducational school in Alabama and the second oldest in the Southeast.

Thirteen schools and colleges advance the University's outstanding programs of teaching, research and service. The current colleges and schools and the dates of this original inception are: College of Agriculture, 1872; College of Architecture Design and Construction, 1907; College of Business, 1967; College of Education, 1915; Samuel Ginn College of Engineering, 1872; School of Forestry and Wildlife Sciences, 1984; College of Human Sciences, 1916; College of Liberal Arts, 1986; School of Nursing, 1979; James Harrison School of Pharmacy, 1885; College of Sciences and Mathematics, 1986; College of Veterinary Medicine, 1907; Graduate School, 1872. In 1986, a university reorganization created the College of Liberal Arts and the College of Sciences and Mathematics from the former school of Arts and Sciences (1872), as well as portions of the school of Agriculture and Biological Sciences and the School of Architecture and Fine Arts (both subsequently renamed).

Auburn's greatest growth and development came after World War II. From a campus of 35 buildings in 1946, the university's multi-million dollar physical complex has grown to approximately 375 buildings on 1,840 acres. The Alabama Agricultural Experiment Station conducts crop, animal and soil experimentation statewide, and Extension agents are stationed in all 67 Alabama counties. Main Campus enrollment is 23,376, with about 1,200 faculty.

In 1967, the State Legislature approved a \$5 million bond issue for the purpose of establishing a four-year university at Montgomery under the supervision and control of the Auburn University Board of Trustees. It was named Auburn University at Montgomery. AUM began operation in the former Extension Center of the University of Alabama temporarily in 1969. Money was raised by the Montgomery community to purchase a 500-acre site seven miles east of the city off Interstate 85 to build. The new campus was built and occupied in 1971. Currently its enrollment stands at approximately 5,000.

AUBURN UNIVERSITY PRESIDENT

On August 8, 1999, William F. Walker was named Provost and Vice President for Academic Affairs of Auburn University. February 12, 2001, the Auburn University Board of Trustees appointed Provost William F. Walker interim president. On June 3, 2002, Dr. Walker was appointed by the Board of Trustees as the 16th president of Auburn University.

Born December 1, 1937, in Sherman, Texas, Dr. Walker earned his Ph.D. in mechanical engineering from Oklahoma State University, and M.S. and B.S. degrees in aerospace engineering from the University of Texas at Austin. He also holds an associate's degree from Arlington State College in Texas.

Dr. Walker came to Auburn as engineering dean and a professor of mechanical engineering from Rice University, where he was a faculty member from 1965-88. At Rice he was chair of the Department of Mechanical Engineering and Materials Science for nine years. During much of his tenure at the Texas institution, he was a professor of both mechanical engineering and mathematics.

While dean of the College of Engineering from 1988 until 1998, Dr. Walker established a uniform system for faculty evaluation and assignment; involved engineering faculty in the strategic planning, tenure and promotion processes; and implemented programs to increase and retain minority faculty and student enrollment within engineering.

Due to increased emphasis on retention and graduation of students, the College of Engineering at Auburn now ranks in the top 15 in the nation in the number of undergraduate engineering degrees awarded.

Dr. Walker also was instrumental in establishing a development officer position dedicated to the College of Engineering. As a result, charitable giving to engineering rose significantly from approximately \$1.4 million in fiscal 1988 to more than \$33 million by 1997.

In 1998, William F. Walker served as co-chair of a special committee created by the Auburn University Board of Trustees to examine university governance and priorities. The committee's recommendations led to a defining of academic priorities, including identification of high priority programs for extra funding and the phase-out of low-priority programs.

Highlights of Dr. William Walker's tenure as President include:

- Successfully steering Auburn through budget cuts prompted by a 6.2 percent proration ordered by Governor Don Siegelman on February 2, 2001.
- Presenting honorary degrees to Auburn's first black student and the university's first black graduate.
- Auburn University's freshman class this fall is not only the largest in the university's history, it is also one of the smartest, according to new data. The 4,153 freshmen for 2002-03 had a combined average of 23.8 on their ACT college entrance exams and a combined high school grade point average of 3.4.

Dr. William F. Walker

- Auburn University improved its ranking to 13th nationally among colleges and universities in graduating African-Americans with bachelor's degrees in engineering, according to a new survey by *Black Issues in Higher Education*.
- In an assessment of the financial strength of Auburn, Moody's Investors Service in November 2001 upgraded Auburn University's General Fee Revenue Bonds from A1 to Aa3. The Aa3 rating is the highest achieved by any academic institution in Alabama, matching the bond rating for the state of Alabama.
- Auburn's transportation research received acquisition of a \$20 million federal appropriation to help fund construction of a \$50 million Center for Transportation Technology.
- Taking major steps to follow up on a commitment made in fall 2001 to make diversity a "core value" within the university. The steps include establishment of a standing university Diversity Leadership Council, establishment of a permanent Center for Diversity and Race Relations and the identification of more than 400 courses that incorporate some elements of diversity and/or tolerance with regard to race, disability, gender and sexual preference.
- Record 2,443 degrees awarded during spring 2002 commencement.
- Approval in May 2002 by the Alabama Commission on Higher Education of the nation's first Bachelor of Wireless Engineering degree program, which was made possible by a \$25 million gift to the Samuel Ginn College of Engineering.

GREETINGS FROM THE PRESIDENT

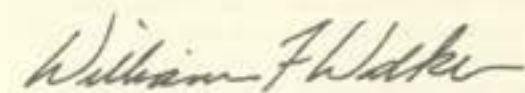

To the graduates of the Class of 2002, to your families and friends, I speak for everyone at Auburn University in expressing heartfelt congratulations to each of you on a tremendous achievement that has taken years to fulfill. Today marks a special time in each of your lives, as well as for those that invested so much in your dreams and desires to reach great heights of fulfillment. It is a great victory for you, as well as for those who supported you personally and financially throughout these challenging years.

Commencement signals a closure to your days at Auburn University. However, a commencement is also a beginning. It is a beginning of new hopes, new dreams, new ambitions and great expectations. When you came to Auburn, you set goals for yourself in order to one day go from here and become a leader in this great nation of ours. Auburn is the place from which you now depart like ripples expanding in a body of water, each ripple a crest of teachers, engineers, artists, scientists, and professionals in numerous academic areas. Throughout your career you will continue to learn within your fields of study, as you give of yourselves.

Today is a celebration of you. You have earned this celebration. From the words of George Petrie, author of The Auburn Creed, "I believe this is a practical world and that I can count only on what I earn. Therefore, I believe in work, hard work." You have worked hard and you have earned this celebration.

I hope that all of you will look back on your days at Auburn University with fondness and know that wherever you go, a part of Auburn goes with you. And know also that you will always be greeted warmly upon your return.

Good Luck and War Eagle!

William F. Walker

ACADEMIC REGALIA

Academic regalia worn by faculty during commencement ceremonies is based on attire used in 12th and 13th century universities. Academic dress and accoutrements of this type have been used in the United States since colonial times. To maintain tradition and the conformity of academic symbols there has been little change in the symbolism of pattern and color since the Middle Ages. In 1895 an Intercollegiate Commission in the United States adopted a standardized code for the use of academic gowns, hoods, and caps, which included regulating the cut, style and materials of gowns. In addition, the colors which were to represent the different fields of learning were prescribed. Over the years, only minor revisions have been made to the code, which is followed by the vast majority of colleges and universities in America, including Auburn University.

GOWNS

Gowns traditionally are all black (Harvard, Princeton, and Yale are exceptions) and are of three styles. The bachelor's gown is a comparatively simple style that falls in straight lines from an elaborate yoke and has pointed sleeves. The master's gown is similar to the bachelor's except for its peculiar arrangement of the long sleeves with square ends that hang below the elbow. The doctor's gown is elaborate, full-cut and flowing, and is distinguished by velvet panels down the front and around the neck and by three velvet bars on the bell-shaped sleeves.

HOODS

Historically, the academic hood was literally a garment to protect the wearer from foul weather. Today, it is the identifying symbol of the degree and the length indicates which degree it represents: three and a half feet for the master's and four feet for the doctoral degree. Hoods are lined with the official color of the college or university conferring the degree. The color of the trimming identifies the major field of learning: maize for agriculture, blue violet for architecture, drab for business, orange for engineering, light blue for education, russet for forestry, burgundy for human sciences, white for liberal arts, golden yellow for sciences and math, apricot for nursing, olive green for pharmacy, and gray for veterinary medicine.

The traditional rule for hoods is that a candidate for a degree should not wear the hood of that degree until it is actually conferred. However, at Auburn University, master's degrees are conferred en masse and degree candidates wear their hoods in the processional and throughout the ceremony. Recipients of the Doctoral degree are individually hooded during the commencement ceremony. These candidates do not wear the hood in the academic processional, but receive the hood when the degree is conferred.

CAPS AND TASSELS

The black mortar board is the cap generally worn with academic regalia. A long tassel is fastened to the middle point on the top of the cap. The tassel is usually the color appropriate to the subject. There is no general rule on the position of the tassel on the mortar board. However, numerous institutions have adopted a practice of requiring candidates for degrees to wear the tassels on the right front side before degrees are conferred and to shift them to the left side when the degrees are awarded to them.
