JOB FAMILY AND FUNCTION

Job Family:	Transportation
Job Function:	Aviation Maintenance

JOB SUMMARY

The Airport Line Service Technician II services aircraft and conducts routine airport maintenance for the airport's fixed base operator (FBO). Refuels a large spectrum of piston and turbine engine aircraft, operates both aviation gasoline and jet-A fuel trucks, conducts fuel quality control testing, assists in receiving fuel loads, and manages the airport's fuel inventory. Conducts daily inspections of the airport's surface and reports any deficiencies to management, as per the airport's self-inspection program. The position would require working weekends, special events, and rotating on-call duty.

RESPONSIBILITIES

- Fuels aircraft using both Aviation Gasoline and Jet-A fuel. Responsible for managing and performing fuel quality control checks on the airport's fuel inventory. Ensures aircraft are fueled according to specific orders and timetables. Ensures oil inventory in fuel trucks is stocked and fulfills oil orders for customers as requested.
- Operates and becomes familiar with ground support equipment, such as the aircraft tugs, ground power unit (GPU), lavatory service cart, de-icing cart, forklift, golf cart, UTV, and airport shuttles; tows a large spectrum of complex aircraft as needed; and marshals aircraft into parking spots.
- Ensures standard operating procedures are followed, utilizing detailed checklists to maintain accuracy and consistency.
- Performs routine airport grounds maintenance, such as mowing grass, applying herbicide, and changing airport lighting fixtures and bulbs.
- Manages the airport apron environment, conducts daily inspections to ensure security and cleanliness, and maintains airport perimeter fencing, gates, apron, shop, and storage facilities in a secure, clean, organized, and presentable condition at all times.
- Provides a high level of customer service to pilots and passengers by loading and unloading baggage from aircraft, assisting customers with baggage to the terminal or car, and providing flight crews with ice and coffee as requested.
- De-ices and de-frosts aircraft as needed and cleans aircraft windshields, and services aircraft lavatory as requested.
- Collaborates with a diverse team of highly motivated individuals to ensure best management practices are followed.
- Assists first responders in emergency situations.
- Trains, coaches, and mentors new hires.

RESPONSIBILITIES

- Ensures safety standards, guidelines, and best practices set forth by the National Air Transportation Association (NATA), Federal Aviation Administration (FAA), Alabama Department of Transportation (ALDOT), and Auburn University are followed to the highest levels.

The responsibilities listed above show the typical duties for jobs in this classification. Actual tasks may differ depending on the department's needs. Other similar duties may be assigned with discretion of the supervisor. Not every duty will apply to every position, and the amount of time spent on each task can change based on department needs.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility	May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.

MINIMUM QUALIFICATIONS

To be eligible, an individual must meet all minimum requirements which are representative of the knowledge, skills, and abilities typically expected to be successful in the role. For education and experience, minimum requirements are listed on the top row below. If substitutions are available, they will be listed on subsequent rows and may only to be utilized when the candidate does not meet the minimum requirements.
