JOB FAMILY AND FUNCTION

Job Family:	Research
Job Function:	Lab & Field Operations

JOB SUMMARY

Coordinates and oversees the use of laboratory equipment and supplies; prepares and maintains lab demonstrations, experiments, recitation activities, and instruction.

RESPONSIBILITIES

- Contributes to the selection, preparation, and delivery of laboratory courses, experiments, and lecture demonstrations.
- Maintains established experiments, lab classroom set-ups, and/or lab projects/services.
- Manages and coordinates the availability, use, and maintenance of laboratory equipment, materials, and/or key inventories.
- Oversees, directs, and trains graduate and undergraduate students in the proper use of laboratory equipment and supplies and provides expertise and advice concerning safety.
- Advises on equipment evaluation and selection for lab facility requirements.
- May direct the instructional lab program for students to include conveying technical information to those enrolled in or teaching labs.

The responsibilities listed above show the typical duties for jobs in this classification. Actual tasks may differ depending on the department's needs. Other similar duties may be assigned with discretion of the supervisor. Not every duty will apply to every position, and the amount of time spent on each task can change based on department needs.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility	May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.

MINIMUM QUALIFICATIONS

To be eligible, an individual must meet all minimum requirements which are representative of the knowledge, skills, and abilities typically expected to be successful in the role. For education and experience, minimum requirements are listed on the top row below.
