JOB FAMILY AND FUNCTION

Job Family:	Facilities, Maintenance, & Operations
Job Function:	Facilities Services

JOB SUMMARY

Manages IT or telecommunications projects to insure installations are compliant, secure and satisfy the needs of University staff and end-users.

RESPONSIBILITIES

- Manages and/or implements projects and design solutions for multiple information technology areas.
- Consults with managers to identify needs and writes bid documents for the installation of telecommunications or computer infrastructure.
- Reviews specifications, blueprints or other plans to ensure installations are technically correct and compliant with regulations, codes and internal/industry standards.
- Conducts job site surveys or construction site visits, interacting with contractors, engineers, and architects, reviewing job installations.
- Provides administrative oversight of projects including cost-tracking, budgetary projections and estimates, and submittal of billing information.
- Reviews vendor products for evaluation of suitability, reading industry literature on technical parameters, and meeting with vendors.
- Interacts with University staff on telecommunications-related issues.

The responsibilities listed above show the typical duties for jobs in this classification. Actual tasks may differ depending on the department's needs. Other similar duties may be assigned with discretion of the supervisor. Not every duty will apply to every position, and the amount of time spent on each task can change based on department needs.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility	May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.
