JOB FAMILY AND FUNCTION

Job Family:	Facilities, Maintenance, & Operations
Job Function:	Grounds

JOB SUMMARY

Under general supervision, performs a variety of intermediate repairs, installations, and maintenance for all irrigation systems associated with Auburn University.

RESPONSIBILITIES

- Performs complex troubleshooting, repairs, and preventative and routine maintenance on irrigation systems.
- Assists with University landscape projects by providing irrigation system support.
- Programs all irrigation controllers so that water is distributed on an as needed basis.
- Operates machinery required to install and maintain irrigation systems including, but not limited to, mini excavators, trenchers, small boring machines, and small utility tractors.
- Schedules the watering of all irrigated areas around campus according to season, weather, and campus events.
- Installs new irrigation systems through trenching, wiring, and valve box digging.
- Assists in the design of new irrigation systems by mapping zones, determining pipe and line sizes, and selecting the appropriate components.
- Determines the appropriate amount of water required for irrigation by calculating flow rates (GPM) and water pressure (PSI).
- May assist in installing and maintaining central control smart irrigation systems.
- May be responsible for meeting and maintaining training and certification requirements as outlined by the applicable department's training and credentialing requirements.

The responsibilities listed above show the typical duties for jobs in this classification. Actual tasks may differ depending on the department's needs. Other similar duties may be assigned with discretion of the supervisor. Not every duty will apply to every position, and the amount of time spent on each task can change based on department needs.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility	May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.
