JOB FAMILY AND FUNCTION

Job Family:	Production & Skilled Trades
Job Function:	Construction

JOB SUMMARY

Under close supervision, assists in the removal process of hazardous materials such as asbestos, mold, and lead paint campus wide. Assists in the construction of containment areas for remediation of hazardous materials. Assists with tasks for new construction, renovation, and/or maintenance projects on university buildings and property.

RESPONSIBILITIES

- Assists in repairing surfaces and facilities damaged by removal of asbestos and mold remediation projects.
- Assists in cleaning mold contaminated areas to prevent health hazards.
- Assists in removing decontaminated asbestos containing materials.
- Assists in building containment areas around asbestos/mold removal sites.
- Assists in the application of chemicals for asbestos/mold remediation projects using asbestos/mold remediation equipment.
- May assist in performing carpentry tasks on maintenance and construction projects with other shops.
- May assist in pressure washing roofs, buildings, and sidewalks on campus.

The responsibilities listed above show the typical duties for jobs in this classification. Actual tasks may differ depending on the department's needs. Other similar duties may be assigned with discretion of the supervisor. Not every duty will apply to every position, and the amount of time spent on each task can change based on department needs.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility	No supervisory responsibilities.
