JOB SUMMARY

The Director of Academic Support and Programming, leads efforts in the College of Engineering to provide comprehensive academic support services and academic enhancement programming for engineering students.

RESPONSIBILITIES

- Recommends and implements programs and policies for academic support services and programs within a college or school.
- Directs, plans, conducts, and assesses the effectiveness of academic support programs and services within a college or school to include submission of annual reports to the Assistant Dean.
- Collaborates with students, faculty, department heads, deans, advisors, and campus partners to provide comprehensive academic support programs and services for students within a college or school.
- Leads a team of academic support staff to include direct supervision, training, strategic planning, and program evaluation.
- Creates and implements communication plans to encourage student participation in academic support programming, including the management of the website, flyers, and other marketing materials.
- Leads efforts to increase retention, persistence, and academic success of students through the management of an academic referral system, academic coaching, peer tutoring, and other academic support programming.
- Develops, implements, and monitors various projects and activities to provide proactive academic interventions for students within a college or school. Provides direct academic coaching in order to increase student success.
- Serves as the lead instructor and organizer of success strategies courses or first-year seminar courses taught within the college or in partnership with other academic units.

SUPERVISORY RESPONSIBILITIES
