### JOB FAMILY AND FUNCTION

Job Family:	Financial & Business Operations
Job Function:	Business Administration

### JOB SUMMARY

The RFID Lab Innovation and Implementation Services Professional advances the operations of the Radio Frequency Identification (RFID) Lab, which conducts sensor technology analyses and testing to drive research, development, and quality initiatives across industries such as Retail, Aerospace/Aviation, Food Service, and Logistics.

### RESPONSIBILITIES

- Operations & Process Improvement:**  
 Contributes to the daily business and operational functions of the RFID Lab, ensuring compliance with University policies and procedures.  
 Oversees administrative processes such as travel, reimbursements, correspondence, recordkeeping, and inventory management.  
 Develops and implements process improvements to enhance efficiency, financial stewardship, and overall operational effectiveness including staff training, and performance review input as assigned to support the lab's business and operations objectives.
- Financial Management & Accounting**  
 Manages financial operations including budgeting, spending, reconciliations, reporting, and purchasing activities.  
 Prepares, reviews, and analyzes financial transactions, accounting records, and reports; investigates discrepancies and recommends corrective actions in accordance with GAAP and University policy.  
 Maintains accurate financial, contractual, and project documentation to ensure transparency, compliance, and accountability.
- Contracts & Grants Administration**  
 Coordinates contracts, invoices, and legal documents (e.g., NDAs, MSAs, PSCs) with internal and external stakeholders.  
 Assists faculty and staff with contract and grant proposal development, budgeting, and submission; serves as liaison with Procurement, Sponsored Programs, and other central offices.
- Student Engagement**

## RESPONSIBILITIES

Hires, trains, and supervises RFID Lab students while maintaining accurate records for scheduling, timekeeping, and reporting.

Coordinates student recruitment, travel, and related administrative processes, including expense and reimbursement documentation.

Advises and supports students on university policies, professional development, and participation in lab projects and programs.

- Industry & Partner Engagement

Co-recruits outside corporate and public partners and research funding for the RFID Lab.

Participates in planning and coordinating events and meetings—including advisory board sessions, lab tours, workshops, and conferences—that promote research, partnerships, and stakeholder engagement while enhancing the department’s reputation.

Collaborates with campus partners and vendors to identify and cultivate prospective alumni, mentors, speakers, and donors.

Coordinates creative content, marketing, and web initiatives for the RFID Lab and department communications, ensuring cohesive messaging and integrated print and digital solutions aligned with Auburn University’s strategic goals.

- Technical Expertise

Assists in the execution of planned of experiments, tests, and laboratory sequences to increase efficiencies; stays abreast with the latest sensor technologies; contributes to new research project concepts and trends.

Supports lab leadership with formal tours of the RFID laboratory to foster relationships for potential funded research by preparing demonstrations and/or project-related presentations.

The responsibilities listed above show the typical duties for jobs in this classification. Actual tasks may differ depending on the department’s needs. Other similar duties may be assigned with discretion of the supervisor. Not every duty will apply to every position, and the amount of time spent on each task can change based on department needs.

## SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility	May supervise employees but supervision is not the main focus of the job.
----------------------------	---
