#### JOB FAMILY AND FUNCTION

Job Family: Academic Services & Administration

Job Function: Academic Programs

#### JOB SUMMARY

Directs the daily operations and coordinates outreach and continuing education coursework for the College of Engineer and College of Business. Oversees and coordinates with staff performing duties to include identifying opportunities for new programs, instructional design courses, marketing and recording of programs, and delivery of courses.

#### RESPONSIBILITIES

- Develops and implements strategic plans to successfully offer and grow online engineering programs and courses as well as continuing education for Engineering Professional Development, including online academic integrity, new credit curriculum development, course quality assurance, marketing, recruiting, student support, equipment and materials purchases, staffing, budgeting, and new facilities planning.
- Collaborates with internal and external stakeholders such as professional licensing agencies to coordinate developing, scheduling, marketing, and budgeting short Engineering Continuing Education courses and publications. Interacts with Continuing Education staff and senior leadership to set goals and budgets for this function.
- Develops, monitors, guides, and achieves the budget goals for this self-sufficient unit which includes income from tuition and short courses, salaries of professional staff and students, and related expenses such as materials, software, equipment, travel, and shipping.
- Utilizes Quality Assurance standards provided by Quality Matters and the Online Learning Consortium to
  monitor and achieve the highest standards of course design, speed of delivery, faculty, and staff engagement
  with and support of students, and other matters that directly relate to the satisfaction of the student and
  client with Auburn University's courses.
- Provides exemplary leadership unit morale and spirit of teamwork to achieve the mission and vision of the University, College, and department. Builds unit sustainability and performance excellence through appropriate human resource development actions, including staffing, supervising, delegating, training, and managing the team in Engineering Outreach units.
- Represents the Samual Ginn College of Engineering on Auburn University committees concerned with distance delivery and technical quality; represents the Samuel Ginn College and University to associations, industry, and others outside of Auburn University.
- Investigates and adopts new educational technology and support services when appropriate. Ensures the Samual Ginn College of Engineering offers students the most effective and efficient technological environment, including the ability to videotape and edit various short programs and video clips for academic and Continuing Education short courses.
