Auburn University Job Description

Job Title: Manager, Enrollment CRM & Data Admin
Job Code: AD69
FLSA status: Exempt

Job Summary
The Manager of Enrollment Customer Relationship Management (CRM) and Data Administration supports the implementation and maintenance of numerous enrollment-related software solutions of Enrollment Management, including Undergraduate Admissions, University Scholarships, and Enrollment Management Operations efforts. Serves as an integral team member that facilitates enrollment strategies using technology such as Ellucian Banner Student Information System, Slate CRM, and Blackbaud Award Management.

Essential Functions
1. Serves as the functional administrator for Enrollment technology solutions, oversees and recommends best procedures, processes, and workflows for these solutions. Coordinates the research, management, maintenance, execution, and training on enrollment management software solutions to meet the needs of departments within the division.
2. Manages the review of data integration errors between enrollment software, Slate, and other software in Enrollment. Researches and rectifies data issues, working with the divisional leadership to improve processes.
3. Provides oversight of Enrollment Management software solutions, serving as a day-to-day technical and functional contact for offices and internal stakeholders concerning supported software. Serves as an Academic Computing Coordinator (ACC) and assists with account and systems access, directory services, and access control.
4. Establishes policies and procedures on data governance, data security and integrity, and data definitions for Enrollment Management, in conjunction with the campus-wide data governance initiatives.
5. Participates on the advisory and installation committees involved with installing new or upgraded administrative systems or processes. Serves as the technical liaison and representative for the Enrollment Management on IT-related functions between central technology support, other university departments, and vendors in implementing and maintaining pertinent systems.
6. Develops and presents user and technical documentation, including developing and updating training materials for relevant technology. Conducts training sessions for new users and ongoing refresher sessions for current users. Works with campus partners to facilitate and vet technology initiatives.
7. Performs other duties as assigned.

Supervisory Responsibility
Full supervisory responsibility for other employees is a major responsibility and includes training, evaluating, and making or recommending pay, promotion or other employment decisions.

The above essential functions are representative of major duties of positions in this job classification. Specific duties and responsibilities may vary based upon departmental needs. Other duties may be assigned similar to the above consistent with the
