Job Family:	Libraries, Archives & Museums
Job Function:	Archives

JOB SUMMARY

The Archivist leads the creation and maintenance of a comprehensive digital portal hosting a diverse range of cybersecurity content for the McCrary Institute.

RESPONSIBILITIES

<ul style="list-style-type: none"> • Collaborates, creates, and maintains a portal with the Web Engineer, Web Designer, Auburn Library, and various external vendors and partners. • Oversees the successful operation of a dedicated cybersecurity news site and associated daily digital newsletter. • Verifies materials for authenticity, physical condition, and historical content and analyzes materials to spot defects and determine inclusion in collections. • Supervises contractors and services to ensure effective creation and maintenance of the digital library and associated portals. • Aids people accessing the archives to retrieve information or to carry out research. Ensures materials are available to the public through scans and copies. • Identifies and updates the digital library with relevant and engaging content surrounding cybersecurity which includes current and historical content.
<ul style="list-style-type: none"> • Works closely with the Auburn University library to develop and integrate the cyber research and policy systems and materials with the Institute's digital library system. • Ensures artifacts are properly cared for, including digitizing photos, maps, and other documents. • Collaborates with the Institute's Senior Fellows, research and policy teams to ensure they have seamless access to the materials they need through the Institute's digital library. • Works with other libraries and digital vendors to secure licensed access to materials for the digital archives, ensuring a rich and comprehensive collection of resources.
<ul style="list-style-type: none"> • Stores digitized archived materials on appropriate databases for easy usage and efficiency.
