Auburn University Job Description

Job Title: Tech III, Electronic Access

Under minimal supervision, performs a variety of skilled and technical maintenance of electronic access control systems, intrusion systems, and door hardware throughout the University. Responsible for the project design, scheduling, installation, repair, and modification of all electronic access system components along with associated networks, databases, and programs.

Essential Functions

1. Installs, troubleshoots, modifies, and programs various access control system readers, electromechanical locking devices, Keyring control systems/components, intrusion systems and supportive hardware, ADA assistive systems, and low voltage devices.
2. Designs, upgrades, and enforces University policies and procedures for all access systems and processes. Identifies system and hardware deficiencies or potential advancements for all related systems and components.
3. Performs system design and project management with various clients requiring Keyring control systems. Maintains and updates control system databases and retrieves misplaced or malfunctioning keys.
4. Responsible for enforcing data integrity for all assigned software systems and databases. Reviews and evaluates various reports for accuracy and completeness.
5. Frequently communicates with faculty, staff, students, and visitors to address access needs, maintenance requests, and questions. Provides updates to supervision and clients regarding work statuses, delays, or completions. Participates in projects and cross-functional activities related to access control and intrusion systems.
6. Prioritizes work assignments and leads work crew to complete tasks. Provides on-the-job training for other specialists as needed.
7. May be responsible for meeting and maintaining training and certification requirements as outlined by the Auburn University Facilities Management Policy: “Training, Education, and Certification Requirements for Mechanical and Electrical Trades Personnel.”
8. Maybe required to serve in an on-call status and remain work-ready when scheduled for an on-call period or rotation. Work-ready status requires an employee to return to the worksite within forty-five minutes while being physically and mentally unimpaired and fit for duty, able to safely perform all essential job functions with no risk to self, coworkers, students, public, or property.
9. May perform other related duties as assigned.

Supervisory Responsibility

May supervise employees but supervision is not the main focus of the job.

The above essential functions are representative of major duties of positions in this job classification. Specific duties and responsibilities may vary based upon departmental needs. Other duties may be assigned similar to the above consistent with the knowledge, skills and abilities required for the job. Not all of the duties may be assigned to a position.
Auburn University Job Description

Minimum Required Education and Experience

<table>
