JOB FAMILY AND FUNCTION

Job Family:	Athletics
Job Function:	Athletics Video Productions

JOB SUMMARY

The Broadcast Engineer I is responsible for providing essential technical support for on-air production systems. This includes the repair, installation, and maintenance of audio, video, and IT equipment across production facilities and broadcast infrastructure. Contribute to operational continuity by overseeing equipment, providing event support, and collaborating with external production teams. Additionally, they ensure adherence to broadcast standards and play a role in mentoring students and TES workers under supervision.

RESPONSIBILITIES

- Assists with technical support for critical and on-air production systems. Ability to back-up or assist non-critical systems and IT and PC gear, including installation, problem correction, removal, and replacement, or other tasks as necessary to ensure the continuation of on-air transmission.
- Assists in the repair, calibration, and installation of audio & video broadcast and IT equipment. This includes equipment within the production facilities such as control rooms and athletic venues (cameras, switchers, audio mixers, multi-viewers, intercom system, monitors, graphic equipment, server/playback, etc.) and related supporting infrastructure in War Eagle Production facilities (Video routers and IP Networks, RF/fiber transmission, tally, signal processing gear, etc.). Depending on your location, maintenance/repair of broadcast equipment (field cameras, mixers, microphones, lights, etc.) may be required.
- Documents quality standards, system anomalies, operational procedures, reference materials, and project work. Ensures sufficient inventory of parts and technology supplies, working with War Eagle Production management to order and track inventory.
- Assists in the service and maintenance of an active production facility. Leads and participates in equipment transport, set-up, operation, and breakdown. Assists in coordination between War Eagle Productions and outside broadcast production trucks. As an event-day crew member, responsible for oversight of student and TES staff assigned to each event.
- Assists as needed with the official SEC Network instant replay system. Assists as needed with live stream or broadcast of post-game and weekly press conferences.
- Assists with multiple aspects of Auburn Athletics videoboard and digital live production for SEC Network broadcasts. Positions worked could include but are not limited to EIC, V1, E2, A1, A2.
- May be responsible for training and mentoring students in standard operating procedures (SOP) and best practices.
- Complies with all applicable National College Athletic Association (NCAA) and Southeastern Conference (SEC) regulations in the performance of job duties.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility	No supervisory responsibilities.
