JOB FAMILY AND FUNCTION

Job Family:	Academic Services & Administration
Job Function:	Academic Programs

JOB SUMMARY

Oversees all aspects of data management and analytics to support the programs within a division or department.

RESPONSIBILITIES

- Assists in developing, planning, and implementing education projects and initiatives ensuring goals and objectives are accomplished within parameters.
- Establishes and maintains contact with other departments and outside agencies in order to permit timely and effective sharing of information and implementation of programs and initiatives.
- Develops, compiles, and maintains large databases and surveys; collects and analyzes data to provide reports to enhance the mission and goals of the department. Monitors and assures quality of data and determines how to translate into usable, actionable information for the formation and execution of strategies and measures of success.
- Collaborates with unit/departments to write evaluations and assessments to include in funding proposal ensuring that required data are accessible, are accurately incorporated into reports, and that useful reports are available to the appropriate people.
- Disseminates program outcomes and findings through journal publications, news articles, and conference presentations. May assist in preparing materials necessary for copy production.
- Creates and maintains websites for all programs within the unit.
- May perform other duties as assigned.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility	May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.
