JOB FAMILY AND FUNCTION

Job Family:	Legal, Compliance & Audit
Job Function:	Risk Management

JOB SUMMARY

Under general supervision of the Safety and Health Manager, the University Industrial Hygienist II assists in identifying, evaluating, and controlling workplace hazards; assists colleges and university departments in complying with applicable workplace regulations and national consensus standards; and supports safe work practices and environments for the Auburn University community, including employees, students, visitors, and contractors and vendors. Resolves routine industrial hygiene and occupational safety and health questions or problems, only referring complex issues to the Safety and Health Manager or other management personnel.

RESPONSIBILITIES

- Participates with others in monitoring Auburn University's health standards in accordance with regulations and assists in compliance. Analyzes, identifies, and measures workplace hazards or stresses that can cause sickness, impaired health, or significant discomfort through chemical, physical, ergonomic, or biological exposures. Provides recommendations to management regarding precautions and corrective actions that should be taken in response to identified hazards.
- Performs inspections, site consultations, hazard analysis, etc. to maintain corrective or preventative action program to periodically assess conformance with federal, state, and local requirements as well as Auburn University's policies and procedures relating to fire and life safety and occupational safety and health.
- Facilitates the collection of samples for noise, dust, gases, vapors, and other potentially toxic materials for analysis. Identifies and evaluates chemical and biological dangers such as air quality, ergonomic challenges, or dangerous sound levels. Provides technical review and interpretation of sampling results.
- Prepares written reports incorporating findings, risk assessments, and recommended corrective actions. Collaborates with university stakeholders to prioritize corrective action to align with urgency and budget availability.
- Assists with and develops, implements, and conducts safety trainings to university faculty, staff, and students in areas of fire and life safety and occupational safety and health to include respirator protection, powered industrial equipment/trucks, asbestos, fall protection, etc.
- Performs other duties as assigned.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility	May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.
----------------------------	---
