**JOB FAMILY AND FUNCTION**

Job Family:	Financial & Business Operations
Job Function:	Business Administration

**JOB SUMMARY**

Oversees the management of all lands associated with the School of Forestry and Wildlife Sciences and Auburn University.

**RESPONSIBILITIES**

- Plans, develops, and implements all aspects of forest management of all lands under Auburn University responsibility.
- Specializes in the processes of land management including but not limited to site preparation, planting, thinnings, harvests, inventory, regeneration efforts, and forest health evaluations.
- Develops and manages the Geographic Information System (GIS) containing information on Auburn University lands to facilitate responsible management of forest products and assist in teaching and research endeavors.
- Researches and develops additional means of revenue-generation on University properties, providing professional recommendations to meet the objectives of each property.
- Oversees maintenance and repairs on University properties to keep facilities in proper working conditions. Maintains a preventive maintenance program for equipment and facilities.
- Assists University faculty with selection for both short term and long term research, teaching, or outreach projects, and management or maintenance of desired forest conditions for studies.
- May provide assistance to instructors for classes taught at the School of Forestry and Wildlife Sciences
- Negotiates terms and conditions of agreements and contracts for forest harvesting, forest management, and leasing of forest lands.
- Collects data for record keeping, research and recreational use.

**SUPERVISORY RESPONSIBILITIES**

Supervisory Responsibility	May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.
