#### JOB FAMILY AND FUNCTION

Job Family:	Research
Job Function:	Technology Commercialization & Economic Development

#### **JOB SUMMARY**

Promotes adoption of university technologies by performing technology assessments, market evaluations, and patentability analyses often for complex and multi-faceted commercial opportunities.

#### **RESPONSIBILITIES**

- Manages, supervises, and evaluates the work of the Intellectual Property (IP) Exchange Commercialization Team, which is comprised of Licensing Officers, interns, postdoctoral fellows, and other temporary employees.
- Oversees management of the university's patent and license portfolio, including periodic reviews of active inventions, monitoring responses to and decisions on open patent actions and maintenance fees, and interacting with current licensees to ensure compliance with their commercial obligations.
- Develops commercialization strategies including IP protection elements by considering the technology, the market, and the strengths of the research team. Conducts research and analysis to identify market applications for disclosed technologies.
- Identifies and assesses new technology commercialization opportunities arising from the university to include assessing commercial potential, commitment of inventors to the commercialization process, suitability for patent or other IP protection, competitive advantages, and scientific merit. Conducts patent searches and freedom to operate for new technologies.
- Develops marketing strategies, prepares descriptions of technologies, and markets commercial opportunities to potential licensees and investors. Negotiates the deal terms for commercialization licenses or research collaborations.
- Oversees programs to proactively foster interaction and collaboration among industries, institutions, and the university for the commercialization and/or development of technologies. Organizes and facilitates meetings with specific industry partners to match their needs with university expertise.
- Identifies new technology trends and needs within industry, governmental agencies, and other third parties.
- Participates in major commercialization efforts and special projects to advance technologies to the market, including internal grant programs, customer discovery, collaborating with the College of Business, and engaging with outside vendors. Coordinates with licensing and business development personnel with the aim of start-up companies to commercialize university technologies.
- Assists the Executive Director of the IP Exchange on commercialization-related projects, as needed.

#### SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility

Full supervisory responsibility for other employees is a major responsibility and includes training, evaluating, and making or recommending pay, promotion or other employment decisions.
