JOB FAMILY AND FUNCTION

Job Family:	Research
Job Function:	Technology Commercialization & Economic Development

JOB SUMMARY

Maximizes the impact of AU's innovation assets via commercialization, while providing high levels of customer service, value-added business development, new venture creation, and a focus on driving quality transactions.

RESPONSIBILITIES

- Identifies technologies/opportunities for commercialization from within the university that may support new venture creation and engineer strategies to develop such opportunities.
- Proactively and vigorously markets AU technologies and capabilities via new and existing networks of private sector relationships. Creates and fosters partnerships with an emphasis on building long-term research and economic development relationships of mutual value.
- Directs and participates in the development of business plans, as well as the identification of necessary and prudent business resources; provides direction and oversight of the identification and assessment of qualified individuals to form management teams to lead startup businesses; directs management teams in investor presentation preparation.
- Participates in identifying potential investment funds that are relevant to commercialization of university technologies and creating startup businesses.
- Establishes, maintains, and grows relationships with Auburn University faculty and outside investors in order to facilitate collaboration with startup business management teams.
- Actively participates in local and regional events/activities promoting innovation, entrepreneurship, and intellectual property awareness in the region.
- Provides professional business advisory services to entrepreneurs seeking to commercialize university technology.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility	May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.
