JOB FAMILY AND FUNCTION

Job Family:	Research
Job Function:	Technology Commercialization & Economic Development

JOB SUMMARY

Reporting to the Director of Commercialization in the Intellectual Property Exchange (IPX), the Technology Licensing Officer identifies technologies with commercial applications, and evaluates them for commercial potential, patentability and freedom to operate.

RESPONSIBILITIES

- Identifies and assesses new technology commercialization opportunities arising from Auburn to include, evaluating the commercial potential by identifying new uses, market segments, market size, and competing technologies using personal knowledge of emerging technology, information from experts, and on-line databases.
- Synthesizes relevant information, performs and initiates technical background and commercial market research. Makes recommendations on marketing and licensing strategies for technologies in the AU portfolio. Prepares non-confidential descriptions of technologies, and markets technologies to identify potential licensing opportunities and alternative applications.
- Assists with the development of intellectual property protection strategies including patenting when appropriate. Manages on- going patent prosecution with outside patent counsel to assure the patent strategy is followed; expenses are controlled; and patent, copyright, trademark, and other IP rights are appropriately protected. Interfaces with inventors as patent claims are prosecuted. Analyzes the impact of proposed and allowed patent claims on the commercialization opportunity.
- Manages and maintains on-going relationships with licensees, monitors the diligence of licensee towards commercializing the licensed technology, negotiates license amendments as needed, and addresses matters of contract compliance to ensure compliance with IPX and AU procedures and policies.
- Develops positive relationships with inventors with the intention of identifying attractive AU technologies for licensing to start-up or established companies. Engages with companies to determine their needs and identifies applicable AU technologies for licensing and/or potential AU researchers to perform industry-sponsored research.
- Offers guidance to research faculty on important research and technology innovation needs sought by industry and government entities as well as trends in specific fields of research. Provides feedback and suggestions to principal investigators on their extramural proposals with the goal of increasing such proposals' competitiveness especially with regards to creating innovative scientific and technical solutions.
- Educates stakeholders about the commercialization of research process. Advises University inventors and potential industry licensees regarding University intellectual property policies and related technology commercialization issues.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility	May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.
