Auburn University Job Description

Job Title:            Mgr, Information & Analytics
Job Code:            HD01
FLSA status:         Exempt

Job Summary
Reporting to the Director, Institutional Research, this position manages the unit's business intelligence needs by serving as the subject matter expert for analytical, statistical, and information sharing initiatives. Along with the Director, serves as an analytical point of contact for the University's senior leadership, including President and Provost, to conduct research and authoring institutional studies to support strategic planning, institutional performance, evaluation and improvement.

Essential Functions

1. Researches, designs, and develops highly complex research and analyses on the University to support the information needs of the unit, the Office of the Provost, and senior University leadership; to include producing peer and trend analyses, conducting predictive modeling including statistical forecasting, performing equity analyses, or similar.
2. Designs data analytics applications using internal and external data sources to evaluate the University's performance in the context of its peers, to support the University's improvement, or to inform University stakeholders; manages implementation of the applications across the University, maintains and documents their status; provides expertise to end users on use and meaning within the national and global context of higher education.
3. Serves as the University's 'Certifying Officer' to the Alabama Commission on Higher Education; manages compliance with the Student Unit Record Data System, a statutory requirement of the State of Alabama, to include development, maintenance, quality control, and documentation of supporting databases and database architecture.
4. Manages and improves processes to support data collection, analysis and dissemination of results through University-wide surveying efforts, including but not limited to the National Study of Instructional Costs, the COACHE Faculty Job Satisfaction Survey, the National Survey of Student Engagement, and surveying initiatives from internal clients such as the Senior Vice President for Student Affairs.
5. Manages the University's engagement with Academic Analytics; collaborates with the Vice-President for Research and academic units to maintain currency of University data provided to Academic Analytics; serves as the University's primary point of contact and provides expertise to University leadership in the use and analysis of the proprietary data available in the Academic Analytics portal.
6. May perform other duties as assigned.

Supervisory Responsibility
May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.

The above essential functions are representative of major duties of positions in this job classification. Specific duties and responsibilities may change as needed and assigned by the supervisor.
Auburn University Job Description
responsibilities may vary based upon departmental needs. Other duties may be assigned similar to the above consistent with the knowledge, skills and abilities required for the job. Not all of the duties may be assigned to a position.
