Approved Date:	7/18/2024 5:28:58 PM

JOB FAMILY AND FUNCTION

Job Family:	Research
Job Function:	Research Operations

JOB SUMMARY

The Lead Principal Research Scientist Engineer provides leadership over a specific or small range of closely related research areas relevant to the Applied Research Center (ARC) lab. Conducts research and establishes external funding for the lab.

RESPONSIBILITIES

- Establishes vision and maintain focus of the lab in alignment with the Applied Research Center Director.
- Supervises lab employees which includes professional development, annual performance reviews, and regular meetings to maintain progress toward the lab vision.
- Leads research and development projects requiring the applications of professional engineering or scientific practices and principles. Secures funding for the lab based on current and future research trends within the specific lab focus.
- Interfaces with US Government, industry, faculty, staff, and students with a focus on relevant applied research. Develops proposals, budgets, schedules, and progress reports and presents results to internal or external stakeholder.
- Advises faculty, principal research scientists and engineers, postdoctoral fellows, students, and staff with design, modification, prototype, processes, analysis procedures, and other engineering solutions.
- Designs and fabricates equipment, materials, systems utilizing engineering practices and principles. Performs failure analysis and other issues.
- Operates, maintains, and repairs specialized equipment. May manage local computer systems for laboratory functionality.
- Ensures supplies are available and operational for use in projects.
- Prepares technical reports for long and short-range planning.

The responsibilities listed above show the typical duties for jobs in this classification. Actual tasks may differ depending on the department's needs. Other similar duties may be assigned with discretion of the supervisor. Not every duty will apply to every position, and the amount of time spent on each task can change based on department needs.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility	Full supervisory responsibility for other employees is a major responsibility and includes training, evaluating, and making or recommending pay, promotion or other employment decisions.
----------------------------	---
