JOB FAMILY AND FUNCTION

Job Family:	Research
Job Function:	

JOB SUMMARY

Leads and oversees all personnel and tasks associated with procuring plasma from horses, placing orders for pheresis supplies, managing staff schedules, maintaining plasma records, and ensuring compliance with FDA-enforced Current Good Manufacturing Practice (cGMP) regulations. Actively engages in the immunization of horses with Select Agents as part of Auburn University's Select Agent Program.

RESPONSIBILITIES

- Supervises the operations and personnel within the pheresis facility, ensuring the efficient collection of plasma from horses including managing staff responsible for monitoring equipment, weight scales, and procedural guidelines.
- Manages and administers plasma inventory, including the tracking and handling of plasma in adherence to policies and procedures under Good Manufacturing Practices.
- Ensures the preventive maintenance and repair of Auto-C plasmapheresis machines, and ensures trained personnel conduct on-site annual preventative maintenance and repairs in accordance with current Good Manufacturing Practices (cGMP).
- Conducts tours for various purposes such as site inspections, visits, seminars, and presentations.
- Generates and maintains data and records for various research projects.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility	Full supervisory responsibility for other employees is a major responsibility and includes training, evaluating, and making or recommending pay, promotion or other employment decisions.
----------------------------	---

MINIMUM QUALIFICATIONS

To be eligible, an individual must meet all minimum requirements which are representative of the knowledge, skills, and abilities typically expected to be successful in the role. For education and experience, minimum requirements are listed on the top row below.
