JOB FAMILY AND FUNCTION

Job Family:	Veterinary & Animal Care
Job Function:	Animal Care

JOB SUMMARY

Reporting to the University Veterinarian and Director of Lab Animal Health, this position manages and oversees consistent animal care standards for traditional and nontraditional laboratory animal species at the Division of Laboratory Animal Health (LAH) and the Biological Research Facility (BRF) animal care units. Supervises a team of employees ensuring routine animal care and maintenance of equipment and facilities to meet regulatory requirements of the animal care units.

RESPONSIBILITIES

- Oversees and manages daily operations of the animal care units and the animal care attendants. Develops and coordinates work schedules, daily tasks, training, policies, and procedures. Ensures animals are cared for daily, which includes covering duties in individual areas during staff absences.
- Oversees the care of animals within each animal care unit, ensuring animal care meets all internal and external applicable laws and regulations. In conjunction with the University Veterinarian, assists with animal care to ensure the safety and well-being of animals utilized for teaching, demonstration, and research.
- Directly supervises animal care unit staff, which includes prioritizing and assigning work, conducting performance evaluations, ensuring staff is trained and following policies and procedures; and makes recommendations for hiring, terminations, and disciplinary action.
- Manages procurement and logistical processes for equipment and supplies used in the animal care units. Supervises maintenance, repair, installation, and removal of equipment and facilities within the animal care units.
- Conducts post-approval monitoring for the animal care units and provides 24/7 after-hours support for buildings and animal care.
- Assists the University Veterinarian in planning, developing, and drafting protocols pertaining to employees, facilities and equipment.
- Assists in employee accident prevention, first aid programs, and safety operations in the animal care unit.
- Receives, approves, and prepares for routine animal housing requests.
- Prepares and maintains documentation associated with animal care, animal census, and building repairs and maintenance.
- Inspects buildings, fences, supplies, and equipment to assess and determine necessary maintenance and repair work.
- Manages quality assurance procedures to ensure compliance with regulatory requirements for the animal care units. Guarantees that all standards for animal care and welfare are consistently met.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility	Full supervisory responsibility for other employees is a major responsibility and includes training, evaluating, and making or recommending pay, promotion or other employment decisions.
