JOB FAMILY AND FUNCTION

Job Family: Veterinary & Animal Care

Job Function: Animal Research

JOB SUMMARY

Assists veterinarians with advanced technical procedures for reproductive management in both client-owned animals and in approved funded research projects within the College of Veterinary Medicine.

RESPONSIBILITIES

- Maintains the operational readiness of facilities and other university-owned resources that are devoted to the Advanced Reproductive Techniques (ART) Program.
- Manages large animals for research and teaching needs, coordinates the animal use in compliance with IACUC guidelines.
- Manages client animals for Embryo Transfer (ET) In-Vitro Fertilization (IVF) and other advanced reproductive techniques. Provides outreach by traveling to local and regional farms to educate clientele (producers) and to solicit IVF and ET services for the program.
- Operates, maintains, repairs, and cleans laboratory, research facilities and equipment as well as maintains inventories for the laboratory and research areas.
- Facilitates veterinary diagnostics and treatments in a safe manner by administering medications, routine vaccinations, and treatment according to prescribed instructions.
- Assists with training laboratory animal caretakers and students regarding care of animals, preventative medicine practices, collection of specimens, and handling of animals.
- Inspects facilities, equipment, and supplies daily as well as observes status of health of animals, environmental conditions, temperatures, and sanitation.
- Assists researchers with examination, treatment, research, projects, surgery, restraint, sample collection in animals, and assists in emergency and critical care of patients. Observes and records data, abnormal clinical signs, and collects and labels specimens.
- Operates and maintains equipment such as loaders, skid steers, tractors, forklifts, etc. to facilitate the movement of heavy objects or animals.
- Coordinates all incoming donation animals, collaborating with potential donors and coordinating animal needs to maintain herds and teaching labs.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility

May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.
