Auburn University Job Description

Job Title: Research Engineer
Job Code: JA01
FLSA status: Exempt

Level I  Grade RE08 $47,300 - $80,400
Level II Grade RE09 $54,400 - $92,500
Level III Grade RE10 $60,300 - $108,500
Level IV Grade RE11 $69,400 - $124,900
Level V Grade RE12 $79,800 - $143,600
Level VI Grade RE13 $92,400 - $175,600

Job Summary
Conducts research in various fields of engineering to discover facts or perform research directed toward investigations, evaluation, and application of engineering theories and principles.

Essential Functions
1. Performs a variety of research and development projects requiring the applications of professional engineering practices and principles.
2. Operates, maintains, and repairs specialized equipment.
3. Advises faculty, postdocs, students, and staff with design, modification, prototype, processes, analysis procedures, and other engineering solutions.
4. Designs and fabricates equipment, materials, systems utilizing engineering practices and principles.
5. Performs failure analysis and other issues.
6. Ensures supplies are available and operational for use in projects.
7. May manage local computer systems for laboratory functionality.
8. Develops proposals, budgets, schedules and progress reports and presents results.
9. Evaluates findings to develop new concepts, equipment, or processes.
10. Prepares technical reports for long and short-range planning.

Supervisory Responsibility
May supervise employees but supervision is not the main focus of the job.

The above essential functions are representative of major duties of positions in this job classification. Specific duties and responsibilities may vary based upon departmental needs. Other duties may be assigned similar to the above consistent with the knowledge, skills and abilities required for the job. Not all of the duties may be assigned to a position.

<table>
<thead>
<tr>
<th>Level</th>
<th>Responsibility</th>
<th>Knowledge</th>
<th>Education and Experience*</th>
</tr>
</thead>
<tbody>
<tr>
<td>I</td>
<td>Works under close supervision; receives specific and detailed instructions for required tasks and results expected. Performs a variety of routine tasks. Usually assumes no responsibility for direction of others.</td>
<td>Familiarity with engineering staff, methods, practices and programs.</td>
<td>B.S. in Engineering or Science-related field and no experience.</td>
</tr>
<tr>
<td>II</td>
<td>Performs standard engineering work requiring application of standard techniques and procedures. Assignments may include higher-level work for developmental purposes. Receives close supervision on new aspects of assignments. Uses prescribed methods, performs specific and limited segments of an experienced engineer's broader assignment.</td>
<td>Continuing developmental level. Limited exercise of judgment required when less common methods or procedures are necessary.</td>
<td>B.S. in Engineering or Science-related field plus 2 years professional experience. Experience must include at least 2 years at the preceding level or equivalent.</td>
</tr>
<tr>
<td>III</td>
<td>Assignments have clear and specific objectives and require investigation of a limited number of variables. Receives instructions on specific assignment objectives, complex features, and possible solutions. May be assisted by engineers or technicians and be responsible for single phase of a project.</td>
<td>Independently evaluates, selects and applies standard engineering techniques and procedures while using judgment when making minor adaptations and modifications.</td>
<td>B.S. in Engineering or Science-related field plus 4 years professional experience. Experience must include at least 2 years at the preceding level or equivalent.</td>
</tr>
<tr>
<td>IV</td>
<td>Plans and conducts work requiring judgment in independent evaluation, selection and substantial adaptation/modification of standard techniques, procedures, and criteria. Devises new solutions to problems encountered. Independently performs most assignments with instruction only regarding general expected results. May supervise a few engineers and/or technicians on project basis.</td>
<td>Fully competent in all conventional aspects of subject matter or functional area of assignments.</td>
<td>B.S. in Electrical Engineering plus 4 years professional experience and must obtain the Certified Energy Manager (CEM) designation from the Association of Energy Engineers within 12 months of employment. Experience must include at least 2 years at the preceding level or equivalent.</td>
</tr>
<tr>
<td>V</td>
<td>Makes decisions independently regarding engineering complexities and methods. Supervision and guidance relate largely to overall objectives, critical issues, new concepts and policy matters. Supervises, coordinates and reviews work of small staff of engineers and/or technicians. As individual researcher or staff specialist, performs complex or novel assignments requiring development of new and/or improved techniques and procedures.</td>
<td>Applies diversified knowledge of engineering principles and practices to broad variety of assignments and related fields. Requires use of advanced techniques and modification and extension of theories, precepts and practices in individual's field.</td>
<td>B.S. in Engineering or Science-related field plus 6 years professional experience. Must obtain the Certified Energy Manager (CEM) designation from the Association of Energy Engineers within 12 months of employment. Experience must include at least 2 years at the preceding level or equivalent.</td>

Auburn University Job Description

VI Plans and develops engineering projects concerned with unique or controversial complexities which have important impact on major organization programs. Plans, organizes and supervises work of staff of engineers and technicians. As individual researcher, consultant or staff specialist conceives plans and conducts research in areas of considerable scope and complexity.

Technical liaison to individuals within or outside his organization involving exploration of subject area, definition of scope, selection of areas for investigation and development of novel concepts.

B.S. in Engineering or closely related field, certification as a Professional Engineer and Certified Energy Manager, and 8 years of progressive engineering experience. Experience must include at least 3 years at the preceding level or equivalent. (must obtain the Certified Energy Manager (CEM) designation from the Association of Energy Engineers within 12 months of employment.)

* See the "Minimum Required Education and Experience" section of the job description for any substitutions that may be allowed for education and experience.

### Focus of Education

Degree in Engineering that is relevant to the area of research

### Focus of Experience

Experience in engineering and research practices and principles

### Substitutions allowed for Education:

When a candidate has the required experience, but lacks the required education, they may normally apply additional relevant experience toward the education requirement, at a rate of two (2) years relevant experience per year of required education.

### Substitutions allowed for Experience:

When a candidate has the required education, but lacks the required experience, they may normally apply additional appropriate education toward the experience requirement, at a rate of one (1) year relevant education per year of required experience.

### Minimum Required Knowledge

Auburn University Job Description

Certification or Licensure Requirements:
Some positions may require licensure as a professional engineer.

Physical Requirements/ADA
Occasional and/or light lifting required. Limited exposure to elements such as heat, cold, noise, dust, dirt, chemicals, etc., but none to the point of being disagreeable. May involve minor safety hazards where likely result would be cuts, bruises, etc.

Routine deadlines; usually sufficient lead time; variance in work volume seasonal and predictable; priorities can be anticipated; some interruptions are present; involves occasional exposure to demands and pressures from persons other than immediate supervisor.

Job frequently requires sitting, reaching, talking, hearing, handling objects with hands, .

Job occasionally requires standing, walking, climbing or balancing, stooping/kneeling/crouching/crawling, and lifting up to 50 pounds.

Vision requirements: Ability to see information in print and/or electronically, ability to distinguish colors.

Date: 1/5/2012
