JOB FAMILY AND FUNCTION

Job Family: Facilities, Maintenance, & Operations

Job Function: Design Management

JOB SUMMARY

Applies civil engineering concepts, principles, and practices in research, development, testing, design, and analysis of materials, processes, and equipment.

RESPONSIBILITIES

- Plans, develops, manages, and documents small and large scale civil engineering projects including the development of budgets, concepts, designs, specifications, evaluations, etc.
- Researches and develops short and long term objectives related to campus maintenance and construction projects.
- Provides civil engineering solutions, designs, and support for construction and maintenance projects on campus buildings, systems, and sites.
- Determines project feasibility based upon analysis to develop modifications and enhancements to existing streets, roadways, and parking lots on campus.
- Coordinates and communicates with contractors, consulting engineers, surveyors, inspectors, interior designers, architects, utility representatives, and other officials to gather and disseminate information and maintenance records as well as to work in unison on campus projects.
- Oversees and reviews the work of others including contracted civil engineering consultants such as surveyors and geotechnical engineers.
- Prepares deeds, property descriptions, and right-of-way maps.

SUPERVISORY RESPONSIBILITIES

Full supervisory responsibility for other employees is a major responsibility and includes training, evaluating, and making or recommending pay, promotion or other employment decisions.

MINIMUM QUALIFICATIONS

To be eligible, an individual must meet all minimum requirements which are representative of the knowledge, skills, and abilities typically expected to be successful in the role.
