JOB SUMMARY

Reporting to the Alabama Transportation Assistance Program (ATAP) Director, the Associate Director of Training and Technical Assistance will serve as the technical lead for the Alabama Local Technical Assistance Program (AL LTAP) providing overall leadership for the center in the areas of technical assistance and training, through identifying new opportunities, securing funding, directing programs, guiding program and project delivery, and establishing future directions.

RESPONSIBILITIES

- Oversees the strategic direction and AL LTAP development and delivery of activities. Utilizes technical expertise and experience to propose, develop, enhance and/or teach new courses and teaching resources.
- Builds and maintains relationships and work collaboratively with city, county, township and tribal governments, state agencies and other stakeholders; engage local and tribal governments in prioritizing and promoting activities in transportation-related areas including planning, design, construction, operations and maintenances of bridges, roadways, waterways, airfields, roadways, and railways.
- Participates in statewide events, meetings and activities that provides opportunities to foster relationships, improve and enhance program services, and builds strategic partnerships; provides leadership for the LTAP Steering Committee and its activities; serves as the LTAP representative on state and national committees
- Serves as technical lead for LTAP federal and state contracts; develops work plans and budgets; manages internal and external resources; ensures compliance with contract requirements and deliverables; and monitors financial performance.
- Assists unit director with program and grant management, including but not limited to maintaining customer relations with federal, state, and local stakeholders, identifying new clients and grant opportunities, managing budgets, continuously assessing stakeholder needs.
- Leads strategic activities and creates strategic relationships that supports the work of ATAP and position the center for opportunities to meet training and technical assistance needs. Leads the planning and coordination of professional development opportunities for professional engineers, surveyors, and other civil engineering technical professions such as workshops, webinars, and conferences in the state. Coordinates collaboration between professional societies, organization, and interdepartmental university resources to broaden the continuing education reach of the Samuel Ginn College of Engineering.
- Oversees and reviews the works of others including contracted civil engineering consultants on civil engineering projects.
- Engages state and local stakeholders to identify current and emerging issues that would benefit from training and technical assistance services; promote ATAP capabilities and facilitate connections and alignment between sponsor needs/opportunities and the Center's interests and capabilities.

RESPONSIBILITIES

- Investigates and scope project leads and identify opportunities to partner, leverage resources, or provide services that position ATAP to attract diverse funding; identifies funding opportunities from diverse sources including federal, state, and local agencies.
- Develops and teaches workshops on transportation and engineering topics of interest to the Alabama Department of Transportation (ALDOT), county engineers, city engineers, contractors, and employees of public work agencies.
- Provides support to center-wide strategy and policy discussions and the implementation of center-wide initiatives.
- Provides technical assistance to state, county, and city engineers on highway safety concerns including performing on-site visits, research, and development to alleviate highway safety problems, develops short- and long-term objectives to construction projects. Plans, develops, manages, and documents small- and large-scale civil engineering projects including the development of budgets, concepts, designs, specifications, and evaluations, among others.
- Serves as a supervisor, including conducting annual reviews, providing mentoring support, monitoring workload, and addressing staff concerns and other issues.
- Oversees the strategic direction of Alabama LTAP including development and delivery of activities. Utilizes technical expertise and experience to propose, develop, enhance and/or teach new courses and teaching resources.
