JOB FAMILY AND FUNCTION

Job Family:	Facilities, Maintenance, & Operations
Job Function:	Project Support & Data Management

JOB SUMMARY

Updates and maintains multiple map types and maps of all utilities covering the university campus and rural property while managing survey data and coordinating temporary structure construction.

RESPONSIBILITIES

- Creates, updates, and maintains utility maps covering university grounds.
- Collect, update, and maintain all area photo types of the main campus and additional university property, and maintains field measurements and surveys in database of maps.
- Creates, updates, and maintains specific purpose maps for various university departments.
- Manage all survey grade GPS data collected (horizontal and vertical locations) within civil/surveying programs.
- Coordinates with university officials and groups who wish to install/build temporary buildings or shelters on campus, ensuring all utility locations are highlighted so objects are not driven into any buried lines and that they are within permitted areas.
- Provides engineers, surveyors, and contractors with maps and survey control points.
- Collects construction plans and as-builts from project managers or plan vault when required.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility

May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.
