JOB FAMILY AND FUNCTION

Job Family:	Legal, Compliance & Audit
Job Function:	Internal Audit

JOB SUMMARY

Reporting to the Director, Internal Auditing, this position serves as an IT Auditor reviewing University processes and systems for internal control weaknesses, security measures, compliance with laws, regulations, policies, and procedures, and overall best practices, focusing on the confidentiality, integrity, and availability of information. In addition, this position serves as a primary digital forensic examiner for the Office of Audit, Compliance & Privacy and is actively involved in gathering and analyzing digital data. This position provides support to legal counsel, compliance offices and/or external partners to the University.

RESPONSIBILITIES

- Prepares risk analyses and vulnerability assessments to identify weaknesses, compliance issues, operational deficiencies, or other specific concerns that could have an adverse impact on the university and assesses the probability of an occurrence. Analyzes information system scans and settings, reports, system configurations, and other data and compares that information to industry standards and established benchmarks to identify exceptions and weaknesses in internal controls.
- Conducts forensic examinations and performs logical and physical acquisitions, e-discovery searches and large data set analyses utilizing digital forensic best practices with the purpose of identifying, preserving, recovering, analyzing and presenting facts and opinions about the digital information. Documents examinations in accordance with policy, paying attention to detail and completeness.
- Prepares audit reports and other correspondence to communicate the results of the reviews to management and the Audit Committee of the Board of Trustees. Discusses the findings and any applicable recommendations with management to obtain an acceptable response.
- Maintains appropriate professional development to include conducting research on new and emerging threats and methodologies of computer forensics including hardware, software, and anti-forensics.
- Serves as the primary contact for IT Support for the Office of Audit, Compliance & Privacy.
- Serves on committees in an advisory role, including but not limited to, reviewing or drafting of university policy to improve the university's computer security environment and ensure compliance with external regulations. Also, consults with university departments on best practices and serves as a resource on policies, procedures, and internal controls.
- Partners with general counsel, human resources, senior management, distributed IT units, and others to provide digital forensic support to include, but not limited to data gathering and analysis on digital forensic evidence.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility	May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.
