Job Family:	Financial & Business Operations
Job Function:	Business Administration

JOB SUMMARY

Reporting to the Director of Strategic Business Operations, the Business Operations Analyst I collaborates with key stakeholders to understand and analyze unit's internal processes. Assists in data mining and collection, creating action plans, and assists with providing recommendations on process improvements that lead to cost savings, revenue generation, and improved operational efficiency across various divisions and departments across campus.

RESPONSIBILITIES

- Assists in conducting an analysis of the unit's internal procedures and systems to provide strategic recommendations and advice on process improvement opportunities. Provides recommendations that lead to significant cost savings, generating more revenue, and enhancing overall operational efficiency within the unit. works collaboratively with key stakeholders to identify areas for improvement, assess current practices, and develop customized solutions that align with the unit's unique needs and goals. Provides ongoing consultation and support to ensure that the recommended improvements are successfully implemented and yield measurable results.
- Works directly with the Director of Strategic Business Operations university-wide and collaboratively with relevant stakeholders within respective departments, including the Chief Procurement Officer, to recognize, design, and implement process improvements, identifying objectives, strategies, and tactics.
- Assists in analyzing data to identify areas of opportunity for process improvement, focusing on cost savings, revenue generation, spend patterns, and increased efficiencies. Mines, compiles, and analyzes relevant data related to the operation of divisions within Auburn University, including Business and Finance.
- Assists in designing standard and customized reports to provide an overview of operational, business, and financial data for stakeholders and leadership yielding of actionable data. Works with stakeholders across the university to ensure the collection and use of data are tailored to meet the unique operational needs of each division. Provides support and feedback on business reports to ensure that data is used effectively.
- Assists in the creation of operational metrics and key performance indicators, using such standards to assist stakeholders in managing business operations to achieve best practices.
- Assists in educating and advising stakeholders and leadership on issues related to data collection, data maintenance, analytical methodology and use of results. Communicates with stakeholders, suppliers, business partners, professional organizations, and others to stay abreast of industry or business trends.
- Performs other related duties as assigned.
