JOB FAMILY AND FUNCTION

Job Family:	Financial & Business Operations
Job Function:	Business Administration

JOB SUMMARY

The Strategic Business Officer supports the campus's organizational planning infrastructure, drives process improvements, and ensures the efficient utilization of resources by leading the efforts to enhance operational efficiency and effectiveness of the university by championing initiatives with a university-wide impact. The focus is on optimizing processes, promoting lean practices, and fostering a culture of operational excellence.

RESPONSIBILITIES

- Leads initiatives with a university-wide impact to enhance operational efficiency and service quality. Supports organizations such as Human Resources, Financial Services & Controller, Budgets & Business Operations, Facilities Management, Administrative Effectiveness, and other units to drive increased efficiency and effectiveness, and Strategizes and executes projects, policies, and practices across the entire university.
- Optimizes resources, streamlines processes, and improves the overall experience for campus stakeholders.
- Develops and maintains the organizational planning infrastructure to support various departments and units. This involves creating frameworks, methodologies, and tools to facilitate long-term and short-term planning and to ensure that plans align with the university's strategic goals and objectives. Identifies, assesses, and implements process improvements utilizing the business systems. Compares and assesses best practices by benchmarking against similar institutions.
- Promotes practices to enhance the campus infrastructure. Identifies areas of continuous improvement, and implements efficient processes to optimize productivity throughout the campus infrastructure.
- Integrates and aligns business systems with core University systems to enhance managerial capabilities, optimize efficiency, effectiveness, and workflow execution, and optimally utilize the systems within the organizations. Develops and implements necessary policies, practices, and procedures.
- Conducts thorough analyses of existing processes, identifies bottlenecks, and implements changes to streamline workflows. The focus is on optimizing resource allocation and reducing redundancies to achieve higher operational efficiency.
- Drives a culture of operational excellence throughout the university. Sets benchmarks for performance excellence, establishes key performance indicators (KPIs), and monitors progress toward achieving operational excellence goals. Fosters a mindset of continuous improvement among staff and stakeholders.
- Manages and leverages data to make informed decisions and enhances university-wide operations. Oversees data collection, storage, analysis, and reporting. Uses data analytics to identify trends, assess performance, and inform strategic decision-making.
- Leads change management efforts related to process improvements and system implementations. Develops strategies, assesses the impact of changes, and ensures a smooth transition through effective communication and training. Manages projects for infrastructure development, process enhancement, and system integration, ensuring alignment with university goals.

RESPONSIBILITIES

- Leads and provides oversight to the delivery of information technology services to the units and organizations to ensure excellent customer service in areas such as IT help desk support, general administration, hardware and software support, vendor relationships management, procurement life cycles, and management and oversight of departmental websites.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility Supervises others with full supervisory responsibility.
