JOB FAMILY AND FUNCTION

Job Family:	Information Technology
Job Function:	Database Administration

JOB SUMMARY

Under minimal supervision, responsible for maintaining, backing-up, and optimizing the University's physical, relational, and object-oriented database resources across multiple platforms and computing environments while ensuring high levels of data quality. Performs work that is usually complex in nature, seeking assistance only when policy or architectural direction prevent a clear decision from being made and solves unanticipated problems independently. Responsible for detailed and complex database and application troubleshooting as it relates to the database or Banner platform. Serves as an expert in all phases of database and server architecture as it relates to designing complex solutions for University projects.

RESPONSIBILITIES

- Installs, configures, monitors, maintains, and performance-tunes production and non-production databases. Applies methodologies for the ongoing assessment of database performance without significant guidance. Performs all standard database maintenance tasks without guidance. Pro-actively seeks to optimize, secure, and stabilize database systems through a combination of expert server knowledge and in-depth database system knowledge.
- Monitors and responds to database incidents including, but not limited to, backup, recovery, tablespace allocation, performance, security access constraints, account operations, nightly job processing, and physical hardware issues. Configures and maintains database monitoring rules and applications. Monitors and responds to database host incidents and resolves issues with database applications at the server level. Architects high-availability solutions and designs database systems to include redundancy and performance considerations.
- Administers databases and Banner security through the pre-established security request/approval framework. Monitors and maintains Banner related systems not covered by other OIT support teams. Performs code migrations via approved migration process. Evaluates security and database policy for improvement opportunities and alignment to strategic direction.
- Administers, upgrades, and maintains various Banner related applications including, but not limited to, Evisions Suite, Form Fusion, Banner SSB/INB, Etranscripts, ESM, Jenkins, and Weblogic Middleware. Maintains knowledge of and schedules relevant security patches and upgrades that will benefit the University. Performs evaluations of new database related applications and determines their usefulness in achieving the University's mission.
- Assists internal and external clients with troubleshooting database connectivity and data related issues. Requests firewall rules to enable client connectivity where appropriate. Evaluates database access requests and server network location to better facilitate the security of the University's data. Contributes to network architecture decisions on behalf of the database administration group, considering performance, security, and simplicity.

RESPONSIBILITIES

- Continuously investigates new technologies and database options for applicability and benefit/cost for improving University database systems.
- Performs complex scripting and analysis and troubleshooting on existing script. Scripts complex and in-depth database and server operations as needed by business or technical requirements.
- May serve as a lead within the team, coordinating the work of others and serving as the primary contact.
- Performs other related duties as assigned by the supervisor.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility	May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.
----------------------------	---

MINIMUM QUALIFICATIONS

To be eligible, an individual must meet all minimum requirements which are representative of the knowledge, skills, and abilities typically expected to be successful in the role. For education and experience, minimum requirements are listed on the top row below. If substitutions are available, they will be listed on subsequent rows and may only be utilized when the candidate does not meet the minimum requirements.

MINIMUM EDUCATION & EXPERIENCE

Education Level	Focus of Education		Years of Experience	Focus of Experience	
Bachelor's Degree	No specific discipline. Degree in IT or related area preferred. Master's degree in IT or related area preferred.	And	8 years of	Relevant IT experience with relational database management systems or database development. Experience with Oracle Enterprise Management and SQL Development.	And

MINIMUM KNOWLEDGE, SKILLS, & ABILITIES

Expert understanding of server infrastructure and operating systems including Windows and Linux, including the ability to navigate and operate in a command line only environment.	And
Solid understanding of networking, firewalls, and load-balancing.	And
Knowledge of database queries, theory, design.	And
Knowledge of structured query language (SQL), such as Transact-SQL or SQL/PSM.	And
Proficient in operating systems (e.g., Windows or Linux).	And
Excellent communications skills both written and verbal.	And
SQL databases	And
Strong technical aptitude and computer skills.	

MINIMUM LICENSES & CERTIFICATIONS

Licenses/Certifications	Licenses/Certification Details	Time Frame	Required/Desired	
None Required.				And
	Oracle Certified Professional	Upon Hire	Desired	And
Microsoft Certified Solutions Associate (MCSA)	Microsoft Certified Solutions Associate	Upon Hire	Desired	

PHYSICAL DEMANDS & WORKING CONDITIONS

Physical Demands Category:	Other
----------------------------	-------

PHYSICAL DEMANDS

Physical Demand	Never	Rarely	Occasionally	Frequently	Constantly	Weight
Standing			X			
Walking			X			
Sitting					X	
Lifting	X					
Climbing		X				
Stooping/ Kneeling/ Crouching		X				
Reaching			X			
Talking					X	
Hearing					X	
Repetitive Motions			X			
Eye/Hand/Foot Coordination			X			

WORKING ENVIRONMENT

Working Condition	Never	Rarely	Occasionally	Frequently	Constantly
Extreme cold		X			
Extreme heat		X			
Humidity		X			
Wet		X			
Noise		X			
Hazards		X			
Temperature Change		X			
Atmospheric Conditions		X			
Vibration		X			

Vision Requirements:

Ability to see information in print and/or electronically.
