JOB FAMILY AND FUNCTION

Job Family:	Information Technology
Job Function:	IT User Support

JOB SUMMARY

Under close supervision, assists with implementing IT technical support requests and proposals and in deriving needs assessments. Uses knowledge of systems analysis to help implement and support technical solutions.

RESPONSIBILITIES

- Analyzes problems on computer applications and University systems and provides technical assistance to University constituents.
- Analyzes current and proposed departmental and client hardware and software systems. Develops and maintains systems for the various constituencies within the unit.
- Reviews proposals which consist of objectives, scope, and client expectations. Gathers facts, analyzes data, and prepares proposal synopses comparing alternatives in terms of cost, time, and available resources.
- Provides individual and/or group instruction and training to students, faculty, and staff on computer technologies.
- Provides technical support for research and development initiatives and for the implementation of new technologies for adoption.
- Writes structured programs, as appropriate, using technologically current programming languages to support systems.
- Performs other related duties as assigned by the supervisor.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility	May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.
----------------------------	---
