JOB FAMILY AND FUNCTION

Job Family:	Information Technology
Job Function:	IT User Support

JOB SUMMARY

Under minimal supervision, collaborates with constituents in formulating IT technical support requests and proposals and in deriving information system needs assessments. Utilizes extensive knowledge of systems analysis to plan and lead the implementation of technical solutions. Provides subject matter expertise in one or more technical areas to include enterprise and business applications and processes, University research processes, scripting and programming languages, operating systems, and current hardware management. Leads and mentors junior employees.

RESPONSIBILITIES

- Plans, coordinates, and schedules investigations, feasibility studies, and surveys of proposed, complex University software tools to include economic evaluations. Supports and ensures reliability of University software and hardware systems.
- Analyzes proposals, identifies proposal enhancements, and conducts feasibility studies. Recommends optimum approach and develops implementation plans. Writes structured programs, as appropriate, using technologically current programming languages to support University systems.
- Guides clients in formulating technical and information requirements. Advises on alternative computer technologies and on the implications of alternative selections. Reviews, evaluates, and recommends solutions for hardware and software acquisitions.
- Analyzes and solves problems on complex computer applications and systems across all University departments. Provides a wide range of in-depth technical assistance to campus constituents. Provides individual and group instruction on computer technologies.
- Provides input into research and development initiatives for the implementation of new technologies for University adoption.
- May serve as project leader for technology projects with large scope impacting University stakeholders, overseeing and integrating the work of other employees.
- May serve as a lead within the team, coordinating the work of others and serving as the primary contact.
- Performs other related duties as assigned by the supervisor.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility	May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.
