**JOB FAMILY AND FUNCTION**

Job Family:	Information Technology
Job Function:	Audio Video Academic & Administration Support

**JOB SUMMARY**

Under minimal supervision, functions as a lead technical expert. Performs work that is usually complex in nature, seeking assistance only when policy or architectural direction prevents a clear decision from being made, and solves unanticipated problems independently. Assesses audio visual technology trends and issues and defines technical solutions to meet the University audio visual technology needs. Ensures stability, integrity, and efficient operation of the audio visual systems that support University functions.

**RESPONSIBILITIES**

- Leads functional counterparts to design and develop audio visual configurations and system integration procedures. Documents deployed systems and their integration points. Creates and coordinates routine audits and testing.
- Establishes and coordinates the administration and maintenance of University audio visual systems according to University and industry standards. Establishes and coordinates enterprise-level configuration changes to systems and applications to identify, correct, and prevent operational and architectural problems.
- Architects and approves audio visual technical solutions, applications, and systems. Establishes the methods and procedures for collecting, organizing, interpreting, and classifying system and log data for security, performance, and capacity planning needs.
- Acts as project manager overseeing all aspects of installation, integration, and testing of audio visual systems.
- Provides oversight and recommendations of backup/recovery plans and procedures for audio visual systems. Defines and oversees backup and disaster recovery processes and procedures.
- Establishes enterprise-level standards for the implementation of new technology deployments, system installations, and system integration testing.
- Collaborates with project leaders and management to identify audio visual needs and recommend changes and improvements. Coordinates and provides ongoing technical assistance to customers regarding systems and applications. Makes recommendations to stakeholders to increase efficiencies in systems and serves as a subject matter expert and consultant to University departments.
- May serve as a lead within the team, coordinating the work of others and serving as the primary contact.
- May provide on-call support for designated systems and services.

The responsibilities listed above show the typical duties for jobs in this classification. Actual tasks may differ depending on the department's needs. Other similar duties may be assigned with discretion of the supervisor. Not every duty will apply to every position, and the amount of time spent on each task can change based on department needs.

**SUPERVISORY RESPONSIBILITIES**

Supervisory Responsibility	May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.
