JOB SUMMARY

The IT Operations Analyst is part of the OIT financial team, primarily responsible for managing the software that is used for OIT billing. This includes troubleshooting issues and maintenance of the software application. This role is also responsible for tracking all computer purchases as well as assisting with other financial duties as needed.

RESPONSIBILITIES

- Assists with and responds to requests from end users, mangers, developers, and team members for specific IT software assets management data information. Maintains the software for additions, expirations, corrections, and transfers of users, extensions, and FOPs; updates recurring charges, all codes, tax structure, cost center and location codes, and security level through the Service Now ticketing system. Responds to emails in the OIT Billing Folder for miscellaneous requests and updates as needed.
- Maintains records for campus computer purchases and support fees through Excel and enters documentation for the Pcard purchases through Banner. Interacts with Endpoint Support about the computer purchases and reconciles the computers in stock to the amount in Banner.
- Coordinates with other University offices on billing charges. Processes OIT charges for Admin and Tenants though the billing software by using Excel files and Access database to upload files and distributes reports to billing coordinators through email.
- Reconciles various accounts by using Excel, Banner, Banner Admin and other software. Performs miscellaneous requests for reports as needed, setup VPN access for external users as needed, and maintains records for VCOM transactions monthly. Obtains signatures for OIT Hosting contracts and updates recurring charges and organizes the folder through Excel, Word, and email.
- Performs various duties at year end for rate changes, updates for recurring charges, reconciliations, updates for tenant contracts, collection of signed documents for fraternities, and updates for fraternities and sororities through Excel and software.
