JOB FAMILY AND FUNCTION

Job Family:	Facilities, Maintenance, & Operations
Job Function:	Design Management

JOB SUMMARY

The Associate Vice President of Planning, Design, and Construction (AVP-PDC) is a critical leadership role responsible for overseeing the university's capital project program, facilities planning, and space management. The AVP-PDC will provide strategic leadership, ensuring that the university's physical infrastructure aligns with its academic mission and supports the long-term goals of the institution.

RESPONSIBILITIES

- **Strategic Planning and Leadership** - Provides oversight in the developing and implementing of a comprehensive strategic plan for the university's capital project program that aligns with the institution's overall goals. Oversees the development of key planning initiatives that foster a culture of innovation and continuous improvement within the department. Additionally, serves as an executive liaison to the university in external forums by building strong relationships with industry professionals ensuring effective strategic leadership.
- **Capital Project Management** - Oversees the university's capital project program, ensuring that projects are completed on time, within budget, and to the highest quality standards. Provides executive leadership that encompasses all aspects of project development, including architect selection, design contract management, project design, budget development, and construction oversight.
- **Facilities Planning and Space Management** - Provides comprehensive oversight in developing and analyzing facility and land use requirements to support the university's academic, research, and administrative needs. Provides senior leadership in conducting site planning and overseeing the space management process for campus facilities, ensuring compliance with applicable laws and regulations.
- **Financial Management** - Oversees and directs the development and management of the department's annual operating budget, overseeing cost accounting and fund expenditures, and conducting financial analyses to support informed decision-making, thereby ensuring fiscal responsibility and effective resource allocation.
- **Stakeholder Engagement** - Provides senior leadership in the advancement of building and maintaining strong relationships with various stakeholders, including university leadership, faculty, staff, students, and external partners. Initiates comprehensive and effective communication standards ensuring stakeholder needs are met and the department's priorities are represented
- **Governance and Compliance** - Leads and directs the Board of Trustees' project approval processes, ensuring compliance with relevant laws, regulations, and university policies. Develops and delivers regular updates and presentations to the Board of Trustees on capital projects, campus planning, and other relevant topics.
- **External Partnerships** - Cultivates strategic partnerships to foster collaborative relationships within the architectural and construction community. Engages in proactive outreach to industry groups and their
