**JOB FAMILY AND FUNCTION**

Job Family:	Facilities, Maintenance, & Operations
Job Function:	Construction Management

**JOB SUMMARY**

Provides construction management support and oversight of project scopes, budgets, contracts, design, bidding, construction compliance with codes and contracts, and day-to-day operational and tactical aspects associated with various projects and facilities.

**RESPONSIBILITIES**

- Coordinates and directs projects, making detailed plans to accomplish goals and directing the integration of technical activities.
- Reviews, and implements project budgets, bids, contracts, and schedules.
- Manages construction progress including ensuring that procedures and materials comply with specifications; observing work in progress; and performing physical inspections to assure timeliness, conformance with requirements, and acceptable workmanship.
- Performs administrative functions such as reviewing and writing reports, approving expenditures, enforcing rules, and making decisions about the purchase of materials or services.
- Manages the services of architects, engineers, and contractors, and vendors for projects and programs.
- Coordinates with project team to continually monitor cost and time management, keeping current summaries of actual and projected expenditures, and apportioning the budget to the appropriate project components.
- Develops and implement policies, standards, and procedures for the engineering and technical work performed on the various projects and facilities.
- Identifies problems and deficiencies in design and implementation and recommends and/or implements solutions with appropriate persons or groups.
- May be responsible for meeting and maintaining training and certification requirements as outlined by the applicable department's training and credentialing requirements.

**SUPERVISORY RESPONSIBILITIES**

Supervisory Responsibility	Supervises others with full supervisory responsibility.
----------------------------	---
