### JOB FAMILY AND FUNCTION

Job Family:	Facilities, Maintenance, & Operations
Job Function:	Environmental Services

### JOB SUMMARY

Reporting to the Assistant Director, Campus Services, this position manages strategies, implements plans, and monitors a comprehensive and cost-effective recycling, waste reduction, and solid waste collection and removal program for Auburn University.

### RESPONSIBILITIES

- Manages Auburn University solid waste collection, disposal and recycling, as well as the collection of construction and demolition debris (inert waste) generated by university departments.
- Plans, manages, and oversees the recycling collection, hauling, and processing programs for the university.
- Manages work order requests and project support for work performed by department personnel including game days, event support, faculty and administration support, and other campus initiatives.
- Manages assigned staff and leads recruitment of positions including reviewing resumes, participating in interviews, and conducting performance review evaluations. Assists in resolving employee relations issues and develops and trains staff.
- Responsible for the management, billing, and administration of third-party vendor contracts associated with the university's solid waste and recycling collection. Evaluates and ensures compliance with contracts throughout the year.
- Gathers information and creates annual reports on the types and amounts of recyclable waste generated/collected to include but not limited to; types and amounts of solid waste land filled, incinerated, reclaimed, and recycled, and the cost involved. Researches grant opportunities; prepares and submits grant proposals to help fund the recycling and waste reduction program. Fosters relationships with local government entities with the ultimate goal of reducing cost while providing more reliable service.
- Manages and maintains an internal accounting system to gather and record solid waste and recycling data by reconciling and processing invoices for contracted services and preparing billing summaries which support reimbursements from externally funded activities.
- Reviews and analyzes policies, guidelines and laws related to hazardous waste, recycling, and solid waste operations to ensure compliance with federal and state regulations and guidelines. Reviews and provides comments on planned projects and facilities for compliance with recycling measures.
- Responsible for the marketing and social media accounts of the Recycling and Solid Waste Program for audiences on and off campus. Conducts informational sessions/seminars and builds networks throughout the University community at large to increase public awareness of solid waste issues

### SUPERVISORY RESPONSIBILITIES
