JOB FAMILY AND FUNCTION

Job Family:	Production & Skilled Trades
Job Function:	Plumbing

JOB SUMMARY

Under close supervision, provides basic level skills and expertise to maintain, install, and replace plumbing pipes, fittings, and fixtures within campus facilities and infrastructure according to the National Plumbing Code.

RESPONSIBILITIES

- Repairs and maintains internal building plumbing systems as well as associated sanitary sewer drains. Fixes routine problems involving drains, toilets, urinals, sinks, faucets, fixtures, valves, and domestic water supply piping.
- Installs plumbing piping, fittings, fixtures, valves, and other related appliances according to the National Plumbing Code as part of a project work crew or repair team. Assists in the repairs of water distribution piping and sanitary sewer piping.
- Performs preventative maintenance on building plumbing systems including drains, strainers, and valves.
- Will be responsible for meeting and maintaining training and certification requirements as outlined by the Auburn University Facilities Management Policy: "Training, Education, and Certification Requirements for Mechanical and Electrical Trades Personnel".
- May be required to serve in an on-call status and remain work-ready when scheduled for an on-call period or rotation. Work-ready status requires an employee to return to the worksite within forty-five minutes while being physically and mentally unimpaired and fit for duty, able to safely perform all essential job functions with no risk to self, coworkers, students, public, or property.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility	May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.
----------------------------	---

MINIMUM QUALIFICATIONS

To be eligible, an individual must meet all minimum requirements which are representative of the knowledge, skills, and abilities typically expected to be successful in the role. For education and experience, minimum requirements are listed on the top row below. If substitutions are available, they will be listed on subsequent rows and may only be utilized when the candidate does not meet the minimum requirements.

MINIMUM EDUCATION & EXPERIENCE

Education Level	Focus of Education		Years of Experience	Focus of Experience	
High School	High School diploma required.	And	2 years of	Experience in installation, maintenance, repair, and operation of a wide array of common plumbing system components.	
Associate's Degree or Vocational Certificate	Associate's degree or vocational training in Plumbing Systems or related field preferred.				

MINIMUM KNOWLEDGE, SKILLS, & ABILITIES

Knowledge of the National Plumbing Code.	
Knowledge regarding the installation, maintenance, repair, and proper operation of a wide array of routine water supply, water distribution, plumbing, and drainage systems.	
Knowledge regarding common interior plumbing systems components such as water and sanitary sewer piping, fittings, fixtures, valves, and strainers, as well as exterior water distribution and storm sewer piping.	
Knowledge concerning common plumbing piping types to include copper, galvanized, and PVC piping.	
Knowledge of the OSHA Safety Manual and safety practices and procedures.	
Knowledge of preventative maintenance procedures and practices.	
Skill in working with copper pipe to include "sweating" joints to connect fittings and pipe sections.	
Skill in working with PVC pipe and fittings.	
Skill in working with cast iron pipe and fittings.	
Skill removing and installing valves, faucets, traps, drains, flush mechanisms, toilets, urinals, sinks, sink hardware, and related plumbing fixtures.	
Skill to be able to perform routine repairs involving plumbing components and systems.	
Skill in performing basic piping layouts and configuration.	
Skill in reading blueprints.	
Skill in the use of hand and power tools applicable to trade.	
Skills to support routine and non-routine emergency repairs on building plumbing and campus water distribution systems.	
Ability to perform preventative maintenance according to published guidelines.
